Scope of Work.

Fleet Services is requesting the purchase of First Aid Kits, Automated External Defibrillators (AEDs), and associated monthly maintenance services provided by RediCare.

RediCare's service includes monthly inventory inspections and supply management. During each monthly visit, any expired, missing, or low-stock items are identified and exchanged, replaced, or replenished as necessary to ensure that the kits remain properly stocked and ready for use.

To minimize overall costs and avoid the administrative burden associated with monthly payments, Fleet Services is requesting that the purchase be structured with a single annual payment covering the equipment, supplies, and associated monthly services.
