NOTICE TO BIDDERS

Please be advised that, The Iran Divestment Act of 2012 (effective April 12, 2012) is codified at State Finance Law("SFL") 165-a and General Municipal Law ("GML") $103-9. The Iran Divestment Act, with certain exceptions, prohibits the City from entering into contracts with persons engaged in investment activities in the energy sector of lran. To implement the law, each bidder or proposer is required to certify at the time it submits its bid or proposal that it is not on a list of entities engaged in investment activities in Iran created by the Commissioner of the NYS Office of General Services pursuant to the State Finance Law. If a bidder or proposer is on the list, an Agency will be able to award a contract to such a vendor only in situations where the vendor is taking steps to cease its investments in Iran or where the vendor is a necessary sole source.

Attached is a rider and a certification implementing the Iran Divestment Act. **ALL BIDDERS ARE REQUIRED TO SIGN THE BIDDER'S CERTIFICATION OF COMPLIANCE WITH IRAN DIVESTMENT ACT AND SUBMIT IT WITH THEIR BID IN PASSPORT.**

FAILURE TO SUBMIT THIS CERTIFICATION THE MAY RESULT IN A NON-RESPONSIVE DETERMINATION

IRAN DIVESTMENT ACT COMPLIANCE RIDER FOR
NEW YORK CITY CONTRACTORS

The Iran Divestment Act of 2012, effective as of April 12, 2012, is codified at State Finance Law ("SFL") §165-a and General Municipal Law ("GML") §103-g. The Iran Divestment Act, with certain exceptions, prohibits municipalities, including the City, from entering into contracts with persons engaged in investment activities in the energy sector of Iran. Pursuant to the terms set forth in SFL §165-a and GML §103-g, a person engages in investment activities in the energy sector of Iran if:

(a) the person provides goods or services of twenty million dollars or more in the energy sector of Iran, including a person that provides oil or liquefied natural gas tankers, or products used to construct or maintain pipelines used to transport oil or liquefied natural gas, for the energy sector of Iran; or

(b) The person is a financial institution that extends twenty million dollars or more in credit to another person, for forty-five days or more, if that person will use the credit to provide goods or services in the energy sector in Iran and is identified on a list created pursuant to paragraph (b) of subdivision three of Section 165-a of the State Finance Law and maintained by the Commissioner of the Office of General Services.

A bid or proposal shall not be considered for award nor shall any award be made where the bidder or proposer fails to submit a signed and verified bidder's certification.

Each bidder or proposer must certify that it is not on the list of entities engaged in investment activities in Iran created pursuant to paragraph (b) of subdivision 3 of Section 165-a of the State Finance Law. In any case where the bidder or proposer cannot certify that they are not on such list, the bidder or proposer shall so state and shall furnish with the bid or proposal a signed statement which sets forth in detail the reasons why such statement cannot be made. The City of New York may award a bid to a bidder who cannot make the certification on a case by case basis if:

(1) The investment activities in Iran were made before the effective date of this section (i.e., April 12, 2012), the investment activities in Iran have not been expanded or renewed after the effective date of this section and the person has adopted, publicized and is implementing a formal plan to cease the investment activities in Iran and to refrain from engaging in any new investments in Iran: or

(2) The City makes a determination that the goods or services are necessary for the City to perform its functions and that, absent such an exemption, the City would be unable to obtain the goods or services for which the contract is offered. Such determination shall be made in writing and shall be a public document.

NOTICE TO BIDDERS

Please be advised that pursuant to GML § 101(5) you are required to submit with your bid the names of subcontractors you intend to use to perform the following work on this contract, as well as the agreed-upon amount to be paid to each:

- plumbing and gas fitting;
- steam heating, hot water heating, ventilating and air conditioning apparatus; and
- electric wiring and standard illuminating fixtures.

The list of subcontractors is to be submitted separately by completing the attached "Subcontractors Identification Form" for any subcontractors intended to be used in any of the three trades listed above. If bidder intends to use its own forces for any of the above listed work, bidder should submit a signed statement to that effect. PLEASE NOTE: for any contract that is subject to M/WBE participation goals under Local Law 129, if the bidder's intention to use its own forces to do any of the above-referenced work would result in Bidder's failure to attain the Target Subcontracting Percentage identified in Schedule B (Subcontractor Utilization Plan), the bid will be non-responsive unless the bidder requests and obtains a Waiver of Target Subcontracting Percentage (Schedule B, Part III) in advance of bid submission. Failure to submit the completed Subcontractor Approval Form that includes the names of subcontractors and the agreed upon amounts to be paid to such subcontractors will render your bid non-responsive.

After the low bid is announced, the list submitted by the low bidder will be opened and the names of the subcontractors will be announced. The lists of subcontractors submitted by all other bidders shall be maintained by the Agency unopened unless such bidder shall become the low bidder (e.g., the initial low bidder is found non-responsive). All unopened lists of subcontractors shall be returned to the bidders unopened after contract award.

After bid submission, any change of subcontractor or agreed-upon amount to be paid to each shall require approval of the Agency upon a showing of a legitimate construction need which shall include, but not be limited to, a change in project specifications, a change in project material costs, a change to subcontractor status as determined pursuant to §222 (2)(e) of the Labor Law, or if the subcontractor has become otherwise unwilling, unable or unavailable to perform the subcontract.

BIDDER'S IDENTIFICATION OF SUBCONTRACTORS

I hereby intend to use the following subcontractors (if any trade is not applicable, so note). If Bidder will be doing any of the below referenced work with its own forces, the Bidder should complete this form using its own name. If multiple subcontractors for any trade are proposed, bidder may submit multiple copies of this form.

Please Note: Bidder may satisfy any required M/WBE Subcontractor Participation Goals (stated in Schedule B) by proposing one or more subcontractors that are M/WBEs for any portion of the work to be performed by the below trades. **If any of the work in the trade categories below is split between two or more subcontractors, provide a description of the work to be performed by each subcontractor.**

6. NYCDEP may independently evaluate the Bidder's qualifications and experience and deem the Bidder qualified, even if the Bidder has technically failed (based on the aforementioned requirements) to submit sufficient evidence and/or complete the Minimum Qualifications Form(s), and as a result, is responsive to the Minimum Qualifications requirements of this Bid.

Any amendment to or reformation of a bid or a contract to rectify such an error or mistake therein is strictly prohibited. Where a unilateral error or mistake is discovered in a low bid, such bid may be withdrawn upon written approval of the ACCO if the following conditions are met:

(b) the price bid was based on an error of such magnitude that enforcement would be unconscionable; and

(c) the bid was submitted in good faith and the bidder submits credible evidence that the mistake was a clerical error as opposed to a judgment error; and

(d) the error in the bid is actually due to an unintentional and substantial arithmetic error or an unintentional omission of a substantial quantity of work, labor, material, or services made directly in the compilation of the bid, which unintentional arithmetic error or unintentional omission can be clearly shown by objective evidence drawn from inspection of the original work papers, documents, or materials used in the preparation of the bid sought to be withdrawn; and

(e) it is possible to place the City in the same condition that had existed prior to the receipt of the bid.

16. RIGHT TO APPEAL DETERMINATIONS OF NON-RESPONSIVENESS OR NON-RESPONSIBILITY AND RIGHT TO PROTEST SOLICITATIONS AND AWARD

SECTION 1 FEDERAL ARCHITECTURAL AND ENGINEERING PROCUREMENT REQUIREMENTS

Any Architectural and Engineering (A/E) services for all Clean Water State Revolving Fund (CWSRF) projects and for Drinking Water State Revolving Fund (DWSRF) projects are required to be procured in compliance with 40 USC 1101 et. seq., and 48 CFR Part 36 Subpart 36.6. The Recipient must certify compliance to receive financing. Disregard this section if it does not apply to this Contract.

SECTION 2 REQUIREMENTS AND PROCEDURES FOR BUSINESS PARTICIPATION OPPORTUNITIES FOR FEDERAL DISADVANTAGED BUSINESS ENTERPRISES AND EQUAL EMPLOYMENT OPPORTUNITIES FOR WOMEN AND MINORITY GROUP MEMBERS

The Equal Employment Opportunities requirements of this section apply to all Contracts and Subcontracts, with the exception of: (1) the requirements under Title VII of the Civil Rights Act of 1964 and 41 CFR Part 60-1 Subpart A which apply only to construction Contracts and Subcontracts; and (2) the Federal Affirmative Action Regulations requirements which apply only to construction Contracts and Subcontracts greater than $10,000.

The Disadvantaged Business Enterprises ("DBE") requirements of this section apply to construction, equipment, services, and/or supplies Contracts.

I. General Provisions

A. Contractors and Subcontractors are required to comply with the following provisions:

1. 40 CFR Part 33 ("Federal DBE Regulations") for contracts under EPA financial assistance agreements, as those terms are defined therein.

2. Title VI of the Civil Rights Act of 1964 and 40 CFR Part 7 ("Title VI") for any program or activity receiving federal financial assistance, as those terms are defined therein.

3. Title VII of the Civil Rights Act of 1964 and 41 CFR Part 60-1 Subpart A ("Title VII") for construction contracts related to any government programs providing federal financial assistance, as those terms are defined therein.

4. 41 CFR Part 60-4 ("Federal Affirmative Action Regulations") for federal or federally assisted construction contracts in excess of $10,000, as those terms are defined therein.

B. Upon request from the Recipient and/or EFC, Contractor will provide complete responses to inquiries and all DBE and EEO records available within a reasonable time or as otherwise determined by EFC.

C. Failure to comply with all of the requirements herein may result in a finding by the Recipient that the Contractor is non-responsive, non-responsible, and/or has breached the Contract, leading to the withholding of funds or such other actions or enforcement proceedings as allowed by the Contract.

D. If any terms or provisions herein conflict with Federal DBE Regulations, Title VI, Title VII, or Federal Affirmative Action Regulations, such law and regulations shall supersede these requirements.

E. The Contractor and Subcontractor shall not discriminate on the basis of race, color, national origin, age, disability, or sex in the performance of this Contract. The Contractor and Subcontractor shall carry out applicable requirements of 40 CFR Part 33 in the award and administration of contracts awarded under EPA financial assistance agreements. B. For federally assisted construction Contracts, the Contractor and Subcontractor will comply with the requirements of 41 CFR § 60-1.4(b) and (c), and such provisions are hereby incorporated by reference. These provisions require, in part, that the Contractor and Subcontractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The Contractor and Subcontractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship.

C. The Contractor shall comply with the provisions of the Human Rights Law (Executive Law Article 15), Title VI, Title VII, the Federal Affirmative Action Regulations, Section 504, Age Discrimination Act, Section 13, and all other State and Federal statutory and constitutional non-discrimination provisions. D. Pursuant to 41 CFR § 60-1.7 for federally assisted construction Contracts, Contractor and Subcontractor will annually file an EEO-1 Report with the Joint Reporting Committee for the Office of Federal Contract Compliance Programs (OFCCP) and the Equal Employment Opportunity Commission (EEOC) according to the instructions provided at https://www.eeoc.gov/employers/eeo-1-survey/eeo-1-instruction-booklet, if Contractor or Subcontractor:

1. Is not exempt from compliance pursuant to 41 CFR § 60-1.5;
2. Has 50 or more employees;
3. Is a prime Contractor or first tier Subcontractor; or Subcontractor below the first tier which performs construction work at the site of construction; and
4. Has a Contract, Subcontract, or purchase order amounting to $50,000 or more.

E. Pursuant to 40 CFR § 7.95, the Contractor shall display a copy of the EEO notice at the project site in a visible location. The notice shall accommodate individuals with impaired vision or hearing and should be provided in languages other than English where appropriate. The notice must also identify the employee responsible for its EEO compliance. See guidance document for sample notice.

F. For federal or federally assisted construction contracts in excess of $10,000, the Contractor and Subcontractor will comply with the Affirmative Action Regulations and such provisions are hereby incorporated by reference. These provisions require, in part, that the Contractor and Subcontractor place affirmative action goals on Contracts and Subcontracts, as established by the United States Department of Labor. See guidance document for goals.

G. The Contractor will include the provisions of Subdivisions II(A) and II(B) in every Subcontract in such a manner that the requirements of these subdivisions will be binding upon each Subcontractor as to work in connection with the Contract.

III. Good Faith Efforts and Fair Share Objectives for DBEs

A. Fair Share Objectives for this Contract are 20%

B. Good Faith Efforts

Pursuant to 40 CFR § 33.301, the Contractor must demonstrate and document “good faith efforts” to provide meaningful participation by DBEs as Subcontractors or Suppliers in the performance of the Contract.

1. For purposes of demonstrating good faith efforts and achieving the fair share objectives established herein, the Contractor should seek out the participation of the following certified entities:
    a. DBEs certified by the Small Business Administration (SBA) directory available at: https://web.sba.gov/pro-net/search/dsp_dsbs.cfm
    b. DBEs certified in New York State: https://nysucp.newnycontracts.com/

2. Participation of Brokers and Truckers/Haulers
    a. Contractors cannot count the participation of a DBE who acts as a Broker or passive conduit of funds without performing, managing, or supervising the work of its contract or subcontract in a manner consistent with normal business practices. If 50% or more of the total dollar amount of a DBE’s prime contract or subcontract is subcontracted to a non–DBE, the DBE prime contractor or subcontractor will be presumed to be a Broker.
    b. Contractors may count the participation of a DBE trucker/hauler only if the trucker/hauler is performing a “commercially useful function,” according to the following factors:
        i. The DBE must be responsible for the management and supervision of the entire trucking/hauling operation for which it is responsible on a particular

contract, and there cannot be a contrived arrangement for the purpose of meeting DBE objectives.

ii. The DBE must itself own and operate at least one fully licensed, insured, and operational truck used on the contract.

C. DBE Utilization Plan

1. The Contractor represents and warrants that Contractor has submitted a completed copy of the EFC DBE Utilization Plan with all required bid forms to the MBO no later than the execution date of this Contract.

2. The Contractor agrees to use such DBE Utilization Plan for the performance of DBEs on the Contract.

3. The Contractor further agrees that a failure to submit and/or use such DBE Utilization Plan shall constitute a material breach of the terms of the Contract. Upon the occurrence of such a material breach, the Recipient shall be entitled to any remedy provided herein, including but not limited to, a finding that the Contractor is not responsive.

4. The Contractor must report any changes to the Utilization Plan after Contract award and during the term of the Contract to the MBO. The Contractor shall indicate the changes to the Recipient in the Quarterly Report immediately following the change. See Section III(E), *Quarterly Report*. At EFC's discretion, an updated DBE Utilization Plan form and good faith effort documentation may be required to be submitted. When a change order is executed the change order and supporting documentation should be submitted to the MBO and a revised Utilization Plan may be required at EFC's discretion.

5. The Contractor shall submit copies of all fully executed subcontracts, agreements, and purchase orders that are referred to in the DBE Utilization Plan to the MBO within 30 days of their execution.

D. Submission of Good Faith Effort Documentation

1. If the Contractor, after making good faith efforts, is unable to meet the DBE fair share objectives, the Contractor must submit documentation showing good faith efforts made by the Contractor to meet the fair share objectives. Such documentation should be submitted to the MBO in accordance with the instructions on the DBE Utilization Plan.

2. If the MBO, upon review of the DBE Utilization Plan and updated Quarterly Reports determines that the Contractor is failing or refusing to comply with the good faith effort requirements or that the good faith efforts are not in the requested format, the Recipient may issue a notice of deficiency to the Contractor. The Contractor must respond to the notice of deficiency within a reasonable time and provide documentation showing good faith efforts as requested.

E. Quarterly Report

1. The Contractor agrees to submit a Quarterly Report to the MBO by the fifteenth business day following the end of each calendar quarter over the term of this Contract documenting the payments made and the progress towards achievement of the DBE fair share objectives of the Contract. The Quarterly Report must be supplemented with proof of payment by the Contractor to its Subcontractors (e.g., copies of both sides of a cancelled check) and proof that Subcontractors have been paid within 30 days of receipt of payment from the Recipient. The final Quarterly Report must reflect all Utilization Plan revisions, final adjusted payments to subcontractors, and all change orders and be marked as "final".

2. The Contractor agrees to submit any other information as may be requested by the MBO or EFC during the term of the Contract as needed to assist EFC for completion of federal

reporting to EPA.

F. Other Requirements

1. All contracts shall comply with the contract administration requirements outlined at 40 CFR 33.302.

SECTION 3 BUILD AMERICA, BUY AMERICA (BABA) ACT AND AMERICAN IRON AND STEEL (AIS) REQUIREMENTS

The requirements of this section apply to all Contracts and Subcontracts.

I. BABA Requirements

Tthe DWSRF or CWSRF Contract or Subcontract shall be subject to the Build America, Buy America Act, and the regulations promulgated thereafter (Pub. L. No. 117-58, §§ 70901-70953, and 2 CFR Part 184), which requires, among other things, that no SRF funds "may be obligated for a project unless all of the iron, steel, manufactured products, and construction materials used in the project are produced in the United States."

The Contractor shall submit with their bid or proposal documents an executed BABA Contractor's Certification on the form attached hereto as Attachment 2 acknowledging to and for the benefit of the Recipient of the Clean Water State Revolving Fund ("CWSRF") or the Drinking Water State Revolving Fund ("DWSRF") financial assistance that the Contractor understands the goods and services under this Agreement are being funded with monies made available by the New York State Environmental Facilities Corporation ("EFC") through the CWSRF or the DWSRF and that such funding is subject to certain statutory restrictions requiring that certain iron, steel, manufactured products, and construction materials used in the project be produced in the United States ("BABA Requirement") including iron, steel, manufactured products, and construction materials provided by the Contractor pursuant to this Agreement.

The Contractor hereby represents and warrants that:

(a) the Contractor has reviewed and understands the BABA Requirement,
(b) all of the iron, steel, manufactured products, and construction materials covered by the BABA Requirement incorporated in the project will be and/or have been produced in the United States in a manner that complies with the BABA Requirement, unless a waiver of the requirement is approved, and
(c) the Contractor will provide any further verified information, certification or assurance of compliance with this paragraph, or information necessary to support a waiver of the BABA Requirement, as may be requested by the Recipient.

Notwithstanding any other provision of this Agreement, any failure to comply with this paragraph by the Contractor shall permit the Recipient to recover as damages against the Contractor any loss, expense, or cost (including without limitation attorney's fees) incurred by the Recipient resulting from any such failure (including without limitation any impairment or loss of funding, whether in whole or in part, from the EFC or any damages owed to the EFC by the Recipient). While the Contractor has no direct contractual privity with the EFC, as a lender to the Recipient for the funding of this project, the Recipient and the Contractor agree that the EFC is a third-party beneficiary and neither this paragraph, nor any other provision of this Agreement necessary to give this paragraph force or effect, shall be amended or waived without the prior written consent of the EFC.

II. AIS Requirements

The requirements of this section apply to (1) all contracts for which Part 1 of this section does not apply, (2) all Construction Contracts and Subcontracts for DWSRF projects and CWSRF Treatment Works projects and (3) all contracts for the purchase of iron and steel products for a DWSRF project or CWSRF Treatment Works project. Disregard this section if it does not apply to this Contract or

Subcontract.

The Contractor shall submit with their bid or proposal documents an executed AIS Contractors Certification on the form attached hereto as Attachment 3 acknowledging to and for the benefit of the Recipient of the Clean Water State Revolving Fund ("CWSRF") or the Drinking Water State Revolving Fund ("DWSRF") financial assistance that the Contractor understands the goods and services under this Agreement are being funded with monies made available by the New York State Environmental Facilities Corporation ("EFC") through the CWSRF or the DWSRF and that such funding is subject to certain statutory restrictions requiring that certain iron and steel products used in the project be produced in the United States ("American Iron and Steel Requirement") including iron and steel products provided by the Contractor pursuant to this Agreement.

The Contractor hereby represents and warrants that:

(a) the Contractor has reviewed and understands the American Iron and Steel Requirement,
(b) all of the iron and steel products covered by the American Iron and Steel Requirement incorporated in the project will be and/or have been produced in the United States in a manner that complies with the American Iron and Steel Requirement, unless a waiver of the requirement is approved, and
(c) the Contractor will provide any further verified information, certification or assurance of compliance with this paragraph, or information necessary to support a waiver of the American Iron and Steel Requirement, as may be requested by the Recipient.

Notwithstanding any other provision of this Agreement, any failure to comply with this paragraph by the Contractor shall permit the Recipient to recover as damages against the Contractor any loss, expense, or cost (including without limitation attorney's fees) incurred by the Recipient resulting from any such failure (including without limitation any impairment or loss of funding, whether in whole or in part, from the EFC or any damages owed to the EFC by the Recipient). While the Contractor has no direct contractual privity with the EFC, as a lender to the Recipient for the funding of this project, the Recipient and the Contractor agree that the EFC is a third-party beneficiary and neither this paragraph, nor any other provision of this Agreement necessary to give this paragraph force or effect, shall be amended or waived without the prior written consent of the EFC.

SECTION 4 DAVIS-BACON (DB) PREVAILING WAGE REQUIREMENTS

The requirements of this section apply to all Construction Contracts and Subcontracts greater than $2,000 for either DWSRF projects or CWSRF Treatment Works projects. Disregard this section if it does not apply to this Contract or Subcontract.

For Contracts in Excess of $2,000:

(a) Required Contract Clauses

1. Minimum Wages

(i) *Wage rates and fringe benefits*

All laborers and mechanics employed or working upon the site of the work will be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by regulations issued by the Secretary of Labor under the Copeland Act (29 CFR part 3)), the full amount of wages and bona fide fringe benefits (or cash equivalents thereof) due at time of payment computed at rates not less than those contained in the wage determination of the Secretary of Labor which is attached hereto and made a part hereof, regardless of any contractual relationship which may be alleged to exist between the Contractor and such laborers and mechanics.

As provided in paragraphs (d) and (e) of this section the appropriate wage determinations are effective by operation of law even if they have not been attached to the contract.

Contributions made or costs reasonably anticipated for bona fide fringe benefits under the Davis-Bacon Act (40 U.S.C. 3141(2)(B)) on behalf of laborers or mechanics are considered wages paid to such laborers or mechanics, subject to the provisions of paragraph (a)(1)(iv) of this section; also, regular contributions made or costs incurred for more than a weekly period (but not less often than quarterly) under plans, funds, or programs which cover the particular weekly period, are deemed to be constructively made or incurred during such weekly period. Such laborers and mechanics shall be paid the appropriate wage rate and fringe benefits on the wage determination for the classification of work actually performed, without regard to skill, except as provided in 29 CFR § 5.5(a)(4). Laborers or mechanics performing work in more than one classification may be compensated at the rate specified for each classification for the time actually worked therein: *provided,* that the employer's payroll records accurately set forth the time spent in each classification in which work is performed. The wage determination (including any additional classification and wage rates conformed under paragraph (1)(ii) of this section) and the Davis–Bacon poster (WH–1321) must be posted at all times by the Contractor and its Subcontractors at the site of the work in a prominent and accessible place where it can be easily seen by the workers.

The Davis-Bacon poster (WH-1321) can be found at https://www.dol.gov/whd/regs/compliance/posters/davis.htm . Wage determinations may be obtained from the US Department of Labor's website, https://sam.gov/.

(ii) *Frequently recurring classifications*

(A) In addition to wage and fringe benefit rates that have been determined to be prevailing under the procedures set forth in 29 CFR Part 1, a wage determination may contain, pursuant to § 1.3(f), wage and fringe benefit rates for classifications of laborers and mechanics for which conformance requests are regularly submitted pursuant to paragraph (a)(1)(iii) of this section, provided that:

1. The work to be performed by the classification requested is not performed by a classification in the wage determination for which a prevailing wage rate has been determined;
2. The classification is used in the area by the construction industry; and,
3. The wage rate for the classification bears a reasonable relationship to the prevailing wage rates contained in the wage determination.

(B) The Administrator will establish wage rates for such classifications in accordance with paragraph (a)(1)(iii)(A)(3) of this section. Work performed in such a classification must be paid at no less than the wage and fringe benefit rate listed on the wage determination for such classification.

(iii) *Conformance*

(A) The contracting officer must require that any class of laborers or mechanics, including helpers, which is not listed in the wage determination and which is to be employed under the Contract be classified in conformance with the wage determination. Conformance of an additional classification and wage rate and fringe benefits is appropriate only when the following criteria have been met:

1. The work to be performed by the classification requested is not performed by a classification in the wage determination; and
2. The classification is used in the area by the construction industry; and,
3. The proposed wage rate, including any bona fide fringe benefits, bears a reasonable relationship to the wage rates contained in the wage determination.

(B) The conformance process may not be used to split, subdivide, or otherwise avoid application of classifications listed in the wage determination.

(C) If the Contractor and the laborers and mechanics to be employed in the classification (if

known), or their representatives, and the contracting officer agree on the classification and wage rate (including the amount designated for fringe benefits where appropriate), a report of the action taken will be sent by the contracting officer by email to DBAconformance@dol.gov. The Administrator, or an authorized representative, will approve, modify, or disapprove every additional classification request within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30–day period that additional time is necessary.

(D) In the event the Contractor, the laborers or mechanics to be employed in the classification or their representatives, and the contracting officer do not agree on the proposed classification and wage rate (including the amount designated for fringe benefits, where appropriate), the contracting officer will, by email to DBAconformance@dol.gov, refer the questions, including the views of all interested parties and the recommendation of the contracting officer, to the Administrator for determination. The Administrator, or an authorized representative, will issue a determination within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30–day period that additional time is necessary.

(E) The contracting officer must promptly notify the Contractor of the action taken by the Wage and Hour Division under paragraphs (a)(1)(iii)(C) and (D) of this section. The Contractor must furnish a written copy of such determination to each affected worker, or it must be posted as a part of the wage determination. The wage rate (including fringe benefits where appropriate) determined pursuant to paragraph (a)(1)(iii)(C) or (D) of this section mustbe paid to all workers performing work in the classification under this Contract from the first day on which work is performed in the classification.

(iv) *Fringe benefits not expressed as an hourly rate*

Whenever the minimum wage rate prescribed in the Contract for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly rate, the Contractor may either pay the benefit as stated in the wage determination or may pay another bona fide fringe benefit or an hourly cash equivalent thereof.

(v) *Unfunded plans*

If the Contractor does not make payments to a trustee or other third person, the Contractor may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing bona fide fringe benefits under a plan or program, *provided,* that the Secretary of Labor has found, upon the written request of the Contractor, in accordance with the criteria set forth in § 5.28, that the applicable standards of the Davis–Bacon Act have been met. The Secretary of Labor may require the Contractor to set aside in a separate account asset for the meeting of obligations under the plan or program.

(vi) *Interest*

In the event of a failure to pay all or part of the wages required by the Contract, the Contractor will be required to pay interest on any underpayment of wages.

2. Withholding.

(i) *Withholding requirements*

The Recipient, Subrecipient at any tier, and/or contracting agency may, upon its own action, or must, upon written request of an authorized representative of the Department of Labor, withhold or cause to be withheld from the Contractor, so much of the accrued payments or advances as may be considered necessary to satisfy the liabilities of the prime Contractor or any Subcontractor for the full amount of wages and monetary relief, including interest, required by the clauses set forth in paragraph (a) of this section for violations of this contract, or to satisfy any such liabilities required by this Contract or any other Federal contract, or federally-assisted contract subject to Davis–Bacon labor standards, that is held by the same prime contractor (as defined in § 5.2).

The necessary funds may be withheld from the Contractor under this contract, any other Federal contract with the same prime contractor, or any other federally-assisted contract that is subject to Davis-Bacon labor standards requirements and is held by the same prime contractor, regardless of whether the other contract was awarded or assisted by the same agency, and such funds may be used to satisfy the Contractor liability for which the funds were withheld.

In the event of a Contractor's failure to pay any laborer or mechanic, including any apprentice or helper, working on the site of the work (or otherwise working on construction or development of the project under a development statute) all or part of the wages required by the Contract, or upon the Contractor's failure to submit the required records as discussed in paragraph (a)(3)(iv) of this section, the Recipient, Subrecipient at any tier, and/or contracting agency may on its own initiative and after written notice to the Contractor, sponsor, applicant, or owner, or other entity, as the case may be, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds until such violations have ceased.

(ii) *Priority to withheld funds*

The Department has priority to funds withheld or to be withheld in accordance with paragraph (a)(2)(i) or (b)(3)(i) of this section, or both over claims to those funds by:

(A) A Contractor's surety(ies), including without limitation performance bond sureties and payment bond sureties;

(B) A contracting agency for its reprocurement costs;

(C) A trustee(s) (either a court-appointed trustee or a U.S. trustee, or both) in bankruptcy of a Contractor, or a Contractor's bankruptcy estate;

(D) A Contractor's assignee(s)

(E) A Contractor's successor(s); or

(F) A claim asserted under the Prompt Payment Act, 31 U.S.C. 3901-3907.

3. Payrolls and basic records.

(i) *Basic record requirements*

(A) Length of record retention

All regular payrolls and other basic records must be maintained by the Contractor and any Subcontractor during the course of the work and preserved for all laborers and mechanics working at the site of the work (or otherwise working in a construction or development of the project under a development statute) for a period of at least three years after all the work on the prime contract is completed.

(B) Information required

Such records must contain the name, Social Security number, last known address, telephone number, and email address of each such worker, each worker's correct classification(s) of work actually performed;, hourly rates of wages paid (including rates of contributions or costs anticipated for bona fide fringe benefits or cash equivalents thereof of the types described in 40 U.S.C. 3141(2)(B) of the Davis–Bacon Act), daily and weekly number of hours actually worked in total on each covered contract; deductions made; and actual wages paid.

(C) Additional records relating to fringe benefits

Whenever the Secretary of Labor has found under 29 CFR § 5.5(a)(1)(iv) that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits

under a plan or program described in section 40 U.S.C. 3141(2)(B) of the Davis–Bacon Act, the Contractor must maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits.

(D) Additional records relating to apprenticeship. Contractors with apprentices working under approved programs must maintain written evidence of the registration of apprenticeship programs, the registration of the apprentices, and the ratios and wage rates prescribed in the applicable programs.

(ii) *Certified payroll requirements*

(A) Frequency and method of submission

The Contractor or Subcontractor must submit weekly, for each week in which any DBA- or Related Acts-covered work is performed, a copy of all payrolls to the Recipient. The prime contractor is responsible for the submission of all certified payrolls by all Subcontractors. A prime contractor may permit or require Contractors to submit certified payrolls through an electronic system, as long as the electronic system requires a legally valid electronic signature; the system allows the Contractor, the contracting agency, EFC, and the Department of Labor to access the certified payrolls upon request for at least 3 years after the work on the prime contract has been completed; and the contracting agency or prime contractor permits other methods of submission in situations where the Contractor is unable or limited in its ability to use the electronic system.

(B) Information required

The certified payrolls submitted must set out accurately and completely all of the information required to be maintained under 29 CFR § 5.5(a)(3)(i)(B), except that full social security numbers and home addresses must not be included on weekly transmittals. Instead, the certified payrolls need only include an individually identifying number for each worker (e.g., the last four digits of the worker's social security number). The required weekly certified payroll information may be submitted using Optional Form WH-347 or in any other format desired. Optional Form WH–347 is available for this purpose from the Wage and Hour Division Web site at https://www.dol.gov/agencies/whd/government-contracts/construction/forms or its successor website. It is not a violation of this section for a prime Contractor to require a Subcontractor to provide addresses and social security numbers to the prime Contractor for its own records, without weekly submission to the Recipient (or the applicant, sponsor, or owner).

(C) Statement of Compliance

Each certified payroll submitted must be accompanied by a "Statement of Compliance," signed by the Contractor or Subcontractor, or the Contractor's or Subcontractor's agent who pays or supervises the payment of the persons employed under the Contract and must certify the following:

1. That the certified payroll for the payroll period contains the information required to be provided under 29 CFR § 5.5(a)(3)(ii), the appropriate information is being maintained under 29 CFR § 5.5 (a)(3)(i), and that such information and records are correct and complete;

2. That each laborer or mechanic (including each helper and apprentice) working on the Contract during the payroll period has been paid the full weekly wages earned, without rebate, either directly or indirectly, and that no deductions have been made either directly or indirectly from the full wages earned, other than permissible deductions as set forth in 29 CFR part 3; and

3. That each laborer or mechanic has been paid not less than the applicable wage rates and fringe benefits or cash equivalents for the classification(s) of work actually performed, as

specified in the applicable wage determination incorporated into the Contract.

(D) Use of Optional Form WH-347

The weekly submission of a properly executed certification set forth on the reverse side of Optional Form WH–347 shall satisfy the requirement for submission of the "Statement of Compliance" required by paragraph (a)(3)(ii)(C) of this section.

(E) Signature

The signature by the Contractor, Subcontractor, or the Contractor's or Subcontractor's agent must be an original handwritten signature or a legally valid electronic signature.

(F) Falsification

The falsification of any of the above certifications may subject the Contractor or Subcontractor to civil or criminal prosecution under 18 U.S.C. 1001 and 31 U.S.C. 3729.

(G) Length of certified payroll retention

The Contractor or Subcontractor must preserve all certified payrolls during the course of the work and for a period of 3 years after all the work on the prime contract is completed.

(iii) *Contracts, Subcontracts, and related documents*

The Contractor or Subcontractor must maintain this Contract or Subcontract and related documents including, without limitation, bids, proposals, amendments, modifications, and extensions. The Contractor or Subcontractor must preserve these Contracts, Subcontracts, and related documents during the course of the work and for a period of 3 years after all work on the prime contract is completed.

(iv) *Required disclosures and access*

(A) Required record disclosures and access to workers

The Contractor or Subcontractor must make the records required under paragraphs (a)(3)(i) through (iii) of this section, and any other documents the Recipient, EFC, EPA, or the Department of Labor deems necessary to determine compliance with the labor standards provisions of any of the applicable statues referenced by 29 CFR § 5.1, available for inspection, copying, or transcription by authorized representatives of the Recipient, EFC, EPA, or the Department of Labor, and must permit such representatives to interview workers during working hours on the job.

(B) Sanctions for non-compliance with records and worker access requirements

If the Contractor or Subcontractor fails to submit the required records, make them available, or refuses to permit worker interviews during working hours on the job, the federal agency may, after written notice to the Recipient, Contractor, sponsor, applicant, owner, or other entity, as the case may be, that maintains such records or that employs such workers, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds. Furthermore, failure to submit the required records upon request or to make such records available, or to permit worker interviews during working hours on the job, may be grounds for debarment action pursuant to 29 CFR § 5.12. In addition, any Contractor or other person that fails to submit the required records or make those records available to WHD within the time WHD requests that the records be produced will be precluded from introducing as evidence in an administrative proceeding under 29 CFR part 6 any of the required records that were not provided or made available to WHD. WHD will take into consideration a reasonable request from the Contractor or a person for an extension of the time for submission of records. WHD will determine the reasonableness of the request and may consider, among other things, the location

of the records and the volume of production.

(C) Required information disclosures

Contractors and Subcontractors must maintain the full Social Security number and last known address, telephone number, and email address of each covered worker, and must provide them upon request to the EPA if the agency is a party to the contract, or to the Wage and Hour Division of the Department of Labor. If the federal agency is not such a party to the contract, the Contractor, Subcontractor, or both, must, upon request, provide the full Social Security number and last known address, telephone number, and email address of each covered worker to the applicant, sponsor, owner, or other entity, as the case may be, that maintains such records, for transmission to the EPA, Recipient, EFC, or subrecipient at any tier, contracting agency, the Contractor, or the Wage and Hour Division of the Department of Labor for purposes of an investigation or other compliance action.

4. Apprentices and trainees.

(i) *Apprentices*

(A) Rate of pay

Apprentices will be permitted to work at less than the predetermined rate for the work they performed when they are employed pursuant to and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Employment and Training Administration, Office of Apprenticeship (OA) Training, or with a State Apprenticeship Agency recognized by the OA, A person who is not individually registered in the program, but who has been certified by the OA or a State Apprenticeship Agency (where appropriate) to be eligible for probationary employment as an apprentice, will be permitted to work at less than the predetermined rate for the work they perform in the first 90 days of probationary employment as an apprentice in such a program., In the event the OA or a State Apprenticeship Agency recognized by the OA, withdraws approval of an apprenticeship program, the Contractor will no longer be permitted to use apprentices at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

(B) Fringe benefits

Apprentices must be paid fringe benefits in accordance with the provisions of the apprenticeship program. If the apprenticeship program does not specify fringe benefits, apprentices must be paid the full amount of fringe benefits listed on the wage determination for the applicable classification. If the Administrator determines that a different practice prevails for the applicable apprentice classification, fringe benefits must be paid in accordance with that determination.

(C) Apprenticeship ratio

The allowable ratio of apprentices to journey workers on the job site in any craft classification must not be greater than the ratio permitted to the Contractor as to the entire work force under the registered program or the ratio applicable to the locality of the project pursuant to paragraph (a)(4)(i)(D) of this section. Any worker listed on a payroll at an apprentice wage rate, who is not registered or otherwise employed as stated in paragraph (a)(4)(i)(A) of this section, must be paid not less than the applicable wage rate on the wage determination for the work actually performed. In addition, any apprentice performing work on the job site in excess of the ratio permitted under the registered program must be paid not less than the applicable wage rate on the wage determination for the work actually performed.

(D) Reciprocity of ratios and wage rates

Where a Contractor is performing construction on a project in a locality other than the locality in which its program is registered, the ratios and wage rates (expressed in percentages of the journey worker’s hourly rate) applicable within the locality in which the construction is being

performed must be observed. If there is no applicable ratio or wage rate for the locality of the project, the ration and wage rate specified in the Contractor's registered program must be observed.

(ii) *Equal employment opportunity*

The use of apprentices and journey workers under this part must be in conformity with the equal employment opportunity requirements of Executive Order 11246, as amended, and 29 CFR part 30.

5. Reserved

6. Subcontracts

The Contractor or Subcontractor must insert in any Subcontracts the clauses contained in 29 CFR § 5.5(a)(1) through (11) or a link to the DBRA Requirements for Contractors and Subcontractors Under EPA Grants documents on EPA's Contract Provisions for Davis-Bacon and Related Acts webpage, along with applicable wage determination(s) and such other clauses or contract modifications as the EPA may by appropriate instructions require, and a clause requiring the Subcontractors to include these clauses and wage determination(s) in any lower-tier Subcontracts. The prime Contractor and any Subcontractor(s) responsible will be liable for any unpaid wages and monetary relief, including interest from the date of underpayment or loss, due to any workers of lower-tier Subcontractors, and may be subject to debarment, as appropriate.

7 through 9. Reserved

10. Certification of eligibility

(i) By entering into this Contract, the Contractor certifies that neither it nor any person or firm who has an interest in the Contractor's firm is a person or firm ineligible to be awarded Government Contracts by virtue of 40 U.S.C. 3144(b) or 29 CFR 5.12(a).

(ii) No part of this Contract shall be subcontracted to any person or firm ineligible for award of a Government contract by virtue of section 40 U.S.C. 6144(b) or 29 CFR 5.12(a).

(iii) The penalty for making false statements is prescribed in the U.S. Code, Title 18 Crimes and Criminal Procedure, 18 U.S.C. § 1001.

11. Anti-Retaliation

It is unlawful for any person to discharge, demote, intimidate, threaten, restrain, coerce, blacklist, harass, or in any other manner discriminate against, or to cause any person to discharge, demote, intimidate, threaten, restrain, coerce, blacklist, harass, or in any other manner discriminate against, any worker or job applicant for:

(i) Notifying any Contractor of any conduct which the worker reasonably believes constitutes a violation of the DBA, Related Acts, this part of 29 CFR part 1 or 3;

(ii) Filing any complaint, initiating or causing to be initiated any proceeding, or otherwise asserting or seeking to assert on behalf of themselves or others any right or protection under the DBA, Related Acts, this part, or 29 CFR part 1 or 3;

(iii) Cooperating in any investigation or other compliance action, or testifying in any proceeding under the DBA, Related Acts, this part, or 29 CFR part 1 or 3; or

(iv) Informing any other person about their rights under the DBA, Related Acts, this part, or 29 CFR part 1 or 3.

For Contracts in Excess of $100,000, in addition to part (a):

(b) Contract Work Hours and Safety Standards Act (CWHSSA)

1. **Overtime requirements**. No Contractor or Subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

2. **Violation; Liability for Unpaid Wages; Liquidated Damages**. In the event of any violation of the clause set forth in paragraph (b)(1) of this section the Contractor and any Subcontractor responsible therefor shall be liable for the unpaid wages and interest from the date of the underpayment. In addition, such Contractor and Subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchpersons and guards, employed in violation of the clause set forth in paragraph (b)(1) of this section, in the sum of $31 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (b)(1) of this section.

3. **Withholding for Unpaid Wages and Liquidated Damages.**

(i) *Withholding process*

The EPA, EFC, Recipient, Subrecipient at any tier, and/or contracting agency may, upon its own action, or must, upon written request of an authorized representative of the Department of Labor, withhold or cause to be withheld from the Contractor so much of the accrued payments or advances as may be considered necessary to satisfy the liabilities of the prime Contractor or any Subcontractor for any unpaid wages; monetary relief, including interest; and liquidated damages required by the clauses set forth in this section, any other Federal contract with the same prime Contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor (as defined in 29 CFR 5.2). The necessary funds may be withheld from the Contractor under this contract, any other Federal contract with the same prime contractor, or any other federally assisted contract that is subject to the Contract Work Hours and Safety Standards Act and is held by the same prime contractor, regardless of whether the other contract was awarded or assisted by the same agency, and such funds may be used to satisfy the Contractor liability for which the funds were withheld.

(ii) *Priority to withheld funds*

The Department has priority to funds withheld or to be withheld in accordance with paragraph (a)(2)(i) or (b)(3)(1) of this section, or both, over claims to those funds by:

(A) A Contractor's surety(ies), including without limitation performance bond sureties and payment bond sureties;

(B) A contracting agency for its reprocurement costs;

(C) A trustee(s) (either a court-appointed trustee or a U.S. trustee, or both) in bankruptcy of a contractor, or a contractor's bankruptcy estate;

(D) A Contractor's assignee(s);

(E) A Contractor's successor(s); or

(F) A claim asserted under the Prompt Payment Act, 31 U.S.C. 3901-3907

4. **Subcontracts**. The Contractor or Subcontractor must insert in any Subcontracts the clauses set forth in paragraphs (1) through (5) of this section and also a clause requiring the Subcontractors to include these clauses in any lower-tier Subcontracts. The prime contractor is responsible for compliance by any Subcontractor or lower-tier subcontractor with the clauses set forth in paragraphs (1) through (5). In the event of any violations of these clauses, the prime contractor and any Subcontractor(s) responsible will be liable for any unpaid wages for monetary relief, including interest from the date of the underpayment or loss, due to any workers of lower-tier subcontractors, and associated liquidated damages and may be subject to debarment, as appropriate.

5. **Anti-Retaliation**

It is unlawful for any person to discharge, demote, intimidate, threaten, restrain, coerce, blacklist, harass, or in any other manner discriminate against, or to cause any person to discharge, demote, intimidate, threaten, restrain, coerce, blacklist, harass, or in any other manner discriminate against, any worker or job applicant for:

(i) Notifying any Contractor of any conduct which the worker reasonably believes constitutes a violation of the Contract Work Hours and Safety Standards Act (CWHSSA) or its implementing regulations in this part;

(ii) Filing any complain, initiating or causing to be initiated any proceeding, or otherwise asserting or seeking to assert on behalf of themselves or others any right or protection under CWSSA or this part;

(iii) Cooperating in any investigation or other compliance action, or testifying in any proceeding under CWHSSA or this part; or

(iv) Informing any other person about their rights under CWHSSA or this part.

SECTION 5 REQUIREMENTS REGARDING SUSPENSION AND DEBARMENT

The requirements of this section apply to all Contracts and Subcontracts.

Contractor and any Subcontractors shall comply with, Subpart C of 2 CFR Part 180 as implemented and supplemented by 2 CFR Part 1532. The Contractor is not a debarred or suspended party under 2 CFR Part 180 or 2 CFR Part 1532, or 29 CFR § 5.12. Neither the Contractor nor any of its Subcontractors have contracted with, or will contract with, any debarred or suspended party under the foregoing regulations.

In addition, the Contractor and any Subcontractors have not been debarred from or deemed ineligible for Government contracts or federally assisted Construction contracts pursuant to Executive Order 12549.

The Contractor and any Subcontractors have not been deemed ineligible to submit a bid on or be awarded a public contract or subcontract pursuant to Article 8 of the State Labor Law, specifically Labor Law § 220-b. In addition, neither the Contractor nor any Subcontractors have contracted with, or will contract with, any party that has been deemed ineligible to submit a bid on or be awarded a public contract or subcontract under Labor Law § 220-b.

In addition, the Contractor and any Subcontractors have not been deemed ineligible to submit a bid and have not contracted with and will not contract with any party that has been deemed ineligible to submit a bid under Executive Law § 316.

SECTION 6 RESTRICTIONS ON LOBBYING

The requirements of this section apply to all Contracts and Subcontracts greater than $100,000. Disregard this section if it does not apply to this Contract or Subcontract.

The Contractor and any Subcontractor bidding or proposing a Contract or Subcontract in excess of $100,000 shall submit with their bid or proposal documents an executed Certification Regarding Lobbying pursuant to 40 CFR Part 34 ("Lobbying Certification") in the form attached hereto as Attachment 4, consistent with the prescribed form provided in Appendix A to 40 CFR Part 34.

SECTION 7 PROHIBITION ON CERTAIN TELECOMMUNICATIONS AND VIDEO SURVEILLANCE SERVICES OR EQUIPMENT

The requirements of this section apply to all Contracts and Subcontracts.

This prohibition is effective for obligations and expenditures of EPA financial assistance funding on or after 8/13/2020.

As required by 2 CFR 200.216, EPA recipients and subrecipients, including borrowers under EPA funded revolving loan fund programs (Recipients), are prohibited from obligating or expending loan or grant funds to procure or obtain; extend or renew a contract to procure or obtain; or enter into a contract (or extend or renew a contract) to procure or obtain equipment, services, or systems that use covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. As described in Public Law 115-232, section 889, covered telecommunications equipment is telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities). EPA funds may not be used to purchase:

a. For the purpose of public safety, security of government facilities, physical security surveillance of critical infrastructure, and other national security purposes, video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities).
b. Telecommunications or video surveillance services provided by such entities or using such equipment.
c. Telecommunications or video surveillance equipment or services produced or provided by an entity that the Secretary of Defense, in consultation with the Director of the National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an entity owned or controlled by, or otherwise connected to, the government of a covered foreign country.

Consistent with 2 CFR 200.471, costs incurred for telecommunications and video surveillance services or equipment such as phones, internet, video surveillance, and cloud servers are allowable except for the following circumstances:

a. Obligating or expending EPA funds for covered telecommunications and video surveillance services or equipment or services as described in 2 CFR 200.216 to:
(1) Procure or obtain, extend or renew a contract to procure or obtain;
(2) Enter into a contract (or extend or renew a contract) to procure; or
(3) Obtain the equipment, services, or systems.

Contractors and Subcontractors shall not procure or install prohibited equipment, systems, or services, including equipment, systems, or services produced or provided by entities identified in section 889, that are recorded in the System for Award Management exclusion list located at https://sam.gov/SAM/.

SECTION 8 CONSTRUCTION SIGNS

The requirements of this section apply to all EFC projects. Additional permanent signage is required for projects receiving funding from the NYS Bond Act.

If Contractor is expected to provide and install an EFC Construction Sign, a specification will be included in the enclosed contract documents.

Instructions for Contractors & Service Providers:

Contractors and Service Providers must complete Sections 2 and 3. Submit the completed signed (electronic signature box checked and dated) form to the Recipient's Minority Business Officer (MBO) no later than the date of contract execution. Incomplete forms will be found deficient. If more than 10 subcontractors are used, additional pages for Section 3 can be obtained from EFC.

If the prime contract is being performed by the parties to a Joint Venture, Teaming Agreement, or Mentor-Protégé Agreement that includes a certified DBE, please contact EFC for assistance.

DBEs on this form may include disadvantaged firms certified by the New York State Unified Certification Program (NYSUCP), and disadvantaged firms certified by the Small Business Administration. In addition, the participation of DBEs will be credited according to the following requirements:

- Contractors cannot count the participation of a DBE who acts as a broker or passive conduit of funds without performing, managing, or supervising the work of its contract or subcontract in a manner consistent with normal business practices. If 50% or more of the total dollar amount of a DBE's prime contract or subcontract is subcontracted to a non–DBE, the DBE prime contractor or subcontractor will be presumed to be a broker.
- Contractors may count the participation of a DBE trucker/hauler only if the trucker/hauler is performing a "commercially useful function," according to the following factors:
    - The DBE must be responsible for the management and supervision of the entire trucking/hauling operation for which it is responsible on a particular contract, and there cannot be a contrived arrangement for the purpose of meeting DBE objectives.
    - The DBE must itself own and operate at least one fully licensed, insured, and operational truck used on the contract.

See the Mandatory Equivalency Terms and Conditions or consult your designated MBO for further guidance.

Instructions for Minority Business Officers (MBO):

The MBO must complete Section 1. Email the completed, signed (electronic signature box checked and dated) form to your EFC Program Compliance Specialist.

The subject heading of the email to the EFC Program Compliance Specialist should follow the format "UP, Project Number, Contractor." EFC will review the Utilization Plan and email the MBO an acceptance or denial.

If the Utilization Plan will not meet or exceed the DBE fair share objective, then the good faith effort documentation noted in Section 4 must be submitted with this form.

11. Screenshots of DBE Directory searches for the equipment or service showing that it is not found in the Directory.

12. An invoice or executed purchase order showing the value of the equipment.

INTRODUCTION

The New York State Environmental Facilities Corporation ("EFC") implements the New York State Revolving Fund ("SRF") for both Clean Water and Drinking Water projects. The SRF encompasses several funding programs, including, but not limited to, the SRF financial assistance loan programs, emerging contaminant grants, and the lead service line replacement program.

This Guidance on Mandatory SRF Terms and Conditions provides a brief description of federal program requirements for Contracts and Subcontracts funded in whole or part by the New York State Clean Water and Drinking Water SRFs, and guidance materials to assist entities in complying with these requirements. Contracts that do not meet the required conditions may not be eligible, in whole or in-part, for financing.

The Guidance Materials are for informational purposes only and are not intended to be used as contractual language. Please do not incorporate the Guidance Materials into any Contracts or Subcontracts.

EFC or its authorized representatives, and other governmental entities as applicable, reserve the right to conduct occasional site visits to verify compliance with SRF program requirements and review recipients monitoring of requirements.

This document is not intended to be inclusive of all applicable legal requirements and there may be other legal requirements that need to be included in a particular Contract or Subcontract that are not set forth here. Accordingly, EFC recommends that Recipients, Contractors, Subcontractors, and any other involved entities consult their legal counsel for advice on compliance with all applicable laws, including but not limited to local laws. This document is not intended to be legal advice.

3 Architectural and Engineering Services for federal CWSRF and/or DWSRF grants and financing

SECTION 1 GUIDANCE FOR FEDERAL ARCHITECTURAL AND ENGINEERING PROCUREMENT REQUIREMENTS

I. Federal A/E Requirements

A. Types of Services
The types of services covered are contracts for program management, construction management, feasibility studies, preliminary engineering, design, engineering, surveying, mapping, or A/E services as defined in 40 U.S.C. 1102(2)(A-C) below:

(A) professional services of an architectural or engineering nature, as defined by state law, if applicable, that are required to be performed or approved by a person licensed, registered, or certified to provide the services described in this paragraph;
(B) professional services of an architectural or engineering nature performed by contract that are associated with research, planning, development, design, construction, alteration, or repair of real property; and
(C) other professional services of an architectural or engineering nature, or incidental services, which members of the architectural and engineering professions (and individuals in their employ) may logically or justifiably perform, including studies, investigations, surveying and mapping, tests, evaluations, consultations, comprehensive planning, program management, conceptual designs, plans and specifications, value engineering, construction phase services, soils engineering, drawing reviews, preparation of operating and maintenance manuals, and other related services.

B. Applicability
A/E services must be procured pursuant to this guidance for such A/E services to be eligible for any Clean Water State Revolving Fund (CWSRF) or Drinking Water State Revolving Fund (DWSRF) grant or financing.

C. Qualification Based Procurement
The requirements for qualification-based procurement are as follows:
1. Public announcement of the solicitation (e.g., a Request for Qualifications);
2. Evaluation and ranking of the submitted qualifications statements based on established, publicly available criteria (e.g., identified in the solicitation). Evaluation criteria should be based on demonstrated competence and qualification for the type of professional services required (e.g., past performance, specialized experience, and technical competence in the type of work required);
3. Discussion with at least three firms to consider anticipated concepts and compare alternative methods for furnishing services;
4. Selection of at least three firms considered to be the most highly qualified to provide the required services; and
5. Contract negotiation with the most highly qualified firm to determine compensation that is fair and reasonable based on a clear understanding of the project scope, complexity, professional nature, and the estimated value of the services to be rendered. In the event that a contract cannot be negotiated with the most highly qualified firm, negotiation continues in order of qualification.

D. Compliance
Municipalities will be required to complete an EFC Certification for Architectural/Engineering Services Procurement for Federally Funded Projects. The Certification must be signed by an authorized representative of the municipality. It cannot be signed by a hired contractor or consultant.

The Certification for Architectural/Engineering Services Procurement for Federally Funded Projects and documentation evidencing completion of the procurement steps outlined above

is required to be kept on file by the municipality and be made available for inspection upon EFC's request.

E. Amendments

Significant contractual amendments are subject to this requirement. Significant contractual amendments are amendments to existing contracts that have a value greater than $100,000 AND introduce a new scope of work or task.

II. Summary of A/E Procurement Forms

A. Forms to be Submitted

1. **Certification for Architectural/Engineering Services Procurement**
   To be submitted by the Recipient with executed agreement for reimbursement of funds.

SECTION 2 GUIDANCE FOR BUSINESS PARTICIPATION OPPORTUNITIES FOR FEDERAL DISADVANTAGED BUSINESS ENTERPRISES AND EQUAL EMPLOYMENT OPPORTUNITIES FOR WOMEN AND MINORITY GROUP MEMBERS

I. Equal Employment Opportunities (EEO)

A. EEO Poster

Applicable to all construction Contracts

Attachment 1, *EEO Poster*, is the notice provided by the United States Department of Labor. Contractor must identify the employee responsible for EEO compliance in the designated area, as required by 40 CFR § 7.95. A copy of the EEO poster can be found at: https://www.eeoc.gov/sites/default/files/2023-06/22-088_EEOC_KnowYourRights6.12ScreenRdr.pdf

B. EEO Goals

Applicable to construction Contracts greater than $10,000

Pursuant to 41 CFR Part 60-4, the United States Department of Labor has established EEO goals for the employment of minorities and women. Goals for Contractors on federal and designated federal assistance projects for minorities and females are established as a percentage participation rate. These goals are applicable to all of a Contractor's construction work sites (whether or not these sites are also the result of a federal Contract or are federally assisted). The goals are applicable to each nonexempt Contractor's total onsite construction workforce, regardless of whether or not part of that workforce is performing work on a federal, federally assisted or non-federally related project Contract or Subcontract. Contractors should apply to each work site the goal for the geographical area that each particular work site is located in.

II. Good Faith Efforts and Fair Share Objectives for DBEs

A. Fair Share Objectives

The Terms & Conditions Section 2(III)(A) provide the applicable Fair Share Objectives for the contract. DBE fair share objectives for a contract will be based on the fair share objectives in place at the time of the execution date of each respective contract, unless otherwise specified. Please contact the MBO if you have any questions about the applicable DBE fair share objectives for your contract.

B. Good Faith Efforts

The Contractor must make good faith efforts to develop an adequate DBE Utilization Plan and must continue such good faith efforts in order to try to meet or exceed applicable DBE

fair share objectives. The Contractor shall maintain documentation of good faith efforts to solicit participation of DBE firms for identified SRF-funded Equivalency projects. If a Contractor is unable to meet contract DBE fair share objectives, documentation of such good faith efforts must accompany the Utilization Plan. See Terms & Conditions Section 2(III)(D). The Contractor should also continue good faith efforts to seek opportunities for DBE participation during the life of the contract even if proposed fair share objectives have been achieved.

Examples of documentation of good faith efforts are set forth below:

- Information on the scope of work related to the contract, such as a copy of the schedule of values from the bid submission, and specific steps taken to reasonably structure the scope of work to break out tasks or equipment needs for the purpose of providing opportunities for subcontracting with, or obtaining supplies or services from, DBEs.
- Printed screenshots of the applicable directory for DBEs that provide the services or equipment necessary for the contract. Contact the MBO for assistance in performing a proper search including identifying a sufficient number of solicitations to show that good faith effort was made.
- Copies of timely solicitations and documentation (e.g., faxes and emails) that the Contractor offered relevant plans, specifications, or other related materials to DBE firms to participate in the work, with the responses.
- A log prepared by the Contractor in a sortable spreadsheet documenting the Contractor's solicitation of DBEs for participation as Subcontractors or Suppliers. The log should consist of the list of DBE firms solicited, the type of work they were solicited to perform (or equipment to provide), how the solicitation was made (fax, phone, email), the date of the solicitation, and the outcome.
  See a sample log at https://efc.ny.gov/mwbe-forms
  If no response was received to an initial solicitation, at least one follow-up solicitation should be made in a different format than the first, e.g. email followed by phone call, and entered in additional columns on the log.
- Any bids or quotes received from non-DBE firms that were more competitive than a bid or quote from DBEs, along with the DBE's bid or quote for comparison.
- Copies of any advertisements of at least 30 days to effectively seek participation of certified DBEs timely published in appropriate general circulation, trade and DBE oriented publications, together with listing and dates of publication of such advertisements. A log should be kept of the responses to the ads, similar to the log for DBE firm solicitation and should include the non-DBE firms that responded and the bid prices.
- Documents demonstrating that insufficient DBEs are reasonably available to perform the work.
- The date of pre-bid, pre-award, or other public meetings scheduled by the Recipient, if any, and the contact information of any DBEs who attended and are capable of performing work on the project.
- Any other information or documentation that demonstrates the Contractor conducted good faith efforts to provide opportunities for DBE participation in their work. For instance, Prime Contractors and MBOs should develop a list of DBE firms that have expressed interest in working on SRF-funded projects.

C. DBE Utilization Plan
Applicable to construction Contracts greater than $100,000 and Non-Construction Provider Contracts greater than $25,000

1. The DBE Utilization Plan must be submitted to the MBO after the bid opening, but in no case later then the execution date of the contract.

2. The MBO will evaluate the completed DBE Utilization Plan and the good faith effort documentation. When the MBO finds the Utilization Plan sufficient, it will be forwarded to EFC for review. If the MBO finds the Utilization Plan or good faith effort insufficient, the Contractor should work with the MBO to address deficiencies before the MBO submits to EFC for final review.

3. In coordination with the MBO, EFC will accept a DBE Utilization Plan upon consideration of many factors, including the following:
   a. The DBE Utilization Plan indicates that the proposed fair share objectives for the project will be achieved;
      i. A Contractor, who is a certified DBE, will be credited for up to 100% of their certification but should deduct any subcontracting by non-DBE subcontractors from their own DBE credit; and,
   b. Submittal of adequate documentation to demonstrate good faith efforts and/or support a specialty equipment/services exclusion as described below in Section III(E).

4. EFC reserves the right to request additional information and/or documentation to support the adequacy of the Utilization Plan.

D. Eligibility for DBE Participation Credit

1. To receive DBE participation credit, Contractors or Subcontractors performing work that have been identified in an approved DBE Utilization Plan must be certified DBEs pursuant to 40 CFR Part 33 by an authorized certifying entity such as the Small Business Administration (SBA).

2. Prime Contractors may also include second tier Subcontractors (Subcontractors hired by Subcontractors) on their Utilization Plan.

3. Participation of Brokers and Truckers/Haulers
   a. Contractors cannot count the participation of a DBE who acts as a Broker or passive conduit of funds without performing, managing, or supervising the work of its contract or subcontract in a manner consistent with normal business practices. If 50% or more of the total dollar amount of a DBE's prime Contract or Subcontract is subcontracted to a non–DBE, the DBE prime contractor or subcontractor will be presumed to be a Broker.
   b. Contractors may count the participation of a DBE trucker/hauler only if the trucker/hauler is performing a "commercially useful function," according to the following factors:
      i. The DBE must be responsible for the management and supervision of the entire trucking/hauling operation for which it is responsible on a particular contract, and there cannot be a contrived arrangement for the purpose of meeting DBE objectives.
      ii. The DBE must itself own and operate at least one fully licensed, insured, and operational truck used on the contract.

E. Submission of Good Faith Effort Documentation
Applicable to construction Contracts greater than $100,000 and Non-Construction Provider Contracts greater than $25,000

1. If the Contractor's application of good faith efforts does not result in the utilization of DBE firms to achieve the aforementioned fair share objectives or a specialty equipment/service exclusion is requested, the Contractor may attach appropriate documentation of good faith efforts as noted in Section III(B) above and submit same to the MBO. See also Terms & Conditions Section 2(III)(D).

2. The MBO will review each Utilization Plan that does not meet the fair share objectives based on the good faith effort criteria presented above and the documentation

submitted with the Utilization Plan. When the MBO deems the documentation acceptable, the MBO will submit the documentation to EFC for final review.

3. The Contractor may request a specialty equipment/service exclusion from the MBO in cases where:
   a. equipment is made by only one non-DBE manufacturer,
   b. the technical specifications call for equipment that is not available through a DBE Supplier;
   c. the equipment is constructed on site by specially trained non-DBE labor;
   d. the service is not available through a DBE (such as work done by Consolidated Edison);
   e. the service is proprietary in nature (such as use of certain computer software necessary for control systems); or,
   f. the service cannot be subcontracted (such as litigation services).

If the contract includes specialty equipment or services, and documentation is submitted demonstrating that there are no DBE firms capable of completing this portion of the contract, the specialty amount of the contract may be deducted from the total contract amount to determine the DBE Eligible Amount and the fair share objectives will be applied to the DBE Eligible Amount. This determination is made at the discretion of EFC.

Example:
$2,000,000 - $500,000 = $1,500,000
Total Contract Value - Specialty equipment/service = DBE Eligible Amount
The DBE fair share objectives are applied to the DBE Eligible Amount.

A request for a specialty equipment/service deduction can be indicated on the Utilization Plan form and submitted to the MBO. The request must include: a copy of the page from the contract where the equipment or service is described; an email or screenshot of the manufacturer's website showing the manufacturer's representatives (if manufactured item); a DBE search result for the representative; and documentation of the cost of each item. Additional documentation may be requested by the MBO or EFC.

III. Subcontractor's Responsibilities

A. Subcontractors should:
   1. Maintain their DBE certifications and notify the Contractor and MBO of any change in their certification status.
   2. Notify the Contractor of any DBE Subcontractors they hire so they may be included on the Contractor's Utilization Plan as a second-tier subcontractor.
   3. Respond promptly to solicitation requests by completing and submitting bid information in a timely manner.
   4. Maintain business records that should include, but not be limited to, contracts/agreements, records of receipts, correspondence, purchase orders, and canceled checks.
   5. Ensure that required EFC Terms & Conditions are included in each Subcontract.
   6. Notify the MBO and EFC when contract problems arise, such as non-payment for services or when the Subcontractor is not employed as described in the DBE Utilization Plan.

IV. Summary of DBE and EEO Forms

V. Protests/Complaints

Contractors or Subcontractors who have any concerns, issues, or complaints regarding the implementation of EFC's DBE & EEO Program or wish to protest should do so in writing to the MBO and EFC. The MBO, in consultation with EFC, will review the circumstances described in the submission, investigate, if warranted, and determine whether action is required. If the Contractor or Subcontractor believes the issue has not been resolved to their satisfaction, they may appeal in writing to EFC for consideration.

VI. Waste, Fraud, and Abuse

Subcontractors, Contractors, or Recipients who know of or suspect any instances of waste, fraud, or abuse within the DBE & EEO Program should notify the MBO and EFC immediately. SECTION 3 GUIDANCE FOR BUILD AMERICA, BUY AMERICA (BABA) ACT AND AMERICAN IRON AND STEEL (AIS) REQUIREMENTS

The requirements of this section apply to all Contracts and Subcontracts.

The Build America, Buy America Act was signed into law in 2021 creating a BABA requirement that expands upon and is broader in scope than the AIS requirement. BABA applies to iron, steel, manufactured products and construction materials on all DWSRF and CWSRF Equivalency projects, whereas the AIS requirement applies to only iron and steel products on projects waived for BABA and Treatment Works projects funded with DWSRF or CWSRF. BABA and AIS will not apply to individual projects at the same time. Accordingly, all DWSRF or CWSRF Equivalency Contracts and Subcontracts are subject to the BABA requirement, unless an EPA waiver applies or can be obtained. If a BABA EPA waiver applies or is obtained, then the AIS requirement applies, unless an AIS EPA waiver is separately obtained.

I. BABA Requirements

If a Recipient uses CWSRF and DWSRF financial assistance to fund all or a part of the construction, alteration, maintenance or repair a public water system or Treatment Works, then all the iron, steel, manufactured products, and construction materials incorporated in the project must be produced in the United States.

Please consult Subsection II below for AIS requirements associated with iron and steel products.

Manufactured products must be manufactured in the United States and the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States must be greater than 55% of the total cost of all components of the manufactured product, unless another standard that meets or exceeds this standard has been established under applicable law or regulation for determining the minimum amount of domestic content of the manufactured product. See 2 CFR § 184.2(a). The costs of components of a manufactured product are determined according to 2 CFR § 184.5. A letter from the manufacturer must be provided certifying compliance with BABA. At a minimum, the letter must (1) be on company letterhead and signed by a company representative; (2) reference the project; (3) contain a list of products used in the final manufactured product; (4) include the City and State where the final manufacturing takes place; (5) reference BABA; and (6) include statement that the product "meets the 55% component test" for manufactured products.

Construction materials must have all manufacturing processes for the construction material occur in the United States. Some examples of construction materials are non-ferrous metals, plastic and polymer-based products (including polyvinylchloride, composite building materials, and polymers used in fiber optic cables), glass (including optic glass), fiber optic cable (including drop cable), optical fiber, lumber, engineered wood and drywall. Minor additions of articles, materials, supplies or binding agents to a construction material do not change the categorization of the construction material. Produced in the United States is defined as followed for the materials listed below.

1. Non-ferrous metals. All manufacturing processes, from initial smelting or melting through final shaping, coating, and assembly, occurred in the United States.
2. Plastic and polymer-based products. All manufacturing processes, from initial combination of constituent plastic or polymer-based inputs, or, where applicable, constituent composite materials, until the item is in its final form, occurred in the United States.
3. Glass. All manufacturing processes, from initial batching and melting of raw materials through annealing, cooling, and cutting, occurred in the United States.
4. Fiber optic cable (including drop cable). All manufacturing processes, from the initial ribboning (if applicable), through buffering, fiber stranding and jacketing, occurred in the

United States. All manufacturing processes also include the standards for glass and optical fiber, but not for non-ferrous metals, plastic and polymer-based products, or any others.
5. Optical fiber. All manufacturing processes, from the initial preform fabrication stage through the completion of the draw, occurred in the United States.
6. Lumber. All manufacturing processes, from initial debarking through treatment and planing, occurred in the United States.
7. Drywall. All manufacturing processes, from initial blending of mined or synthetic gypsum plaster and additives through cutting and drying of sandwiched panels, occurred in the United States.
8. Engineered wood. All manufacturing processes from the initial combination of constituent materials until the wood product is in its final form, occurred in the United States.

A. BABA Project Waivers

The EPA may waive the BABA requirement for a project if:

1. applying the requirement would be inconsistent with the public interest;
2. types of iron, steel, manufactured products, or construction materials are not produced in the United States in sufficient and reasonably available quantities and of a satisfactory quality; or
3. inclusion of iron, steel, manufactured products, or construction materials produced in the United States will increase the cost of the overall infrastructure project by more than 25 percent.

A request for a waiver must include adequate information for EPA's evaluation of the request, including:

1. Waiver type (nonavailability, unreasonable cost, or public interest)
2. Recipient name and Unique Entity Identifier (UEI)
3. Financial Assistance listing name and number
4. Total cost of expenditures, including Federal and non-Federal funds
5. Infrastructure project description and location
6. List of iron or steel item(s), manufactured products, and construction material(s) proposed to be excepted from Buy America requirements, including name, cost, country(ies) of origin (if known), and relevant PSC and NAICS code for each
7. A certification that the Recipient made a good faith effort to solicit bids for domestic products supported by terms in RFPs, contracts and nonproprietary communications with the prime contractor.
8. A statement of waiver justification, including a description of efforts made by the Recipient in an attempt to avoid the need for a waiver. Such a justification may cite, if applicable, the absence of any Buy America-compliant bids received in response to a solicitation
9. Anticipated impact if no waiver is issued
10. Any relevant comments received through the public comment period

Recipients may request waivers from EPA if the recipient reasonably believes a waiver is justified. Requests for BABA waivers must be submitted through the Recipient to EFC for Clean Water or DOH for Drinking Water projects on form OMB Control No. 0505-0028 Build America Buy America Waiver Request Data Collection. Upon review, EFC/DOH will submit BABA waiver requests to EPA. When EPA receives a request for a waiver, EPA will submit to OMB Made in America Office (MIAO) and publish the request and any accompanying material on the MIAO official public Internet site, allowing public input on the request for a period of not less than 15 calendar days before granting or denying the waiver request. The form is available for use on EFC's website under Forms & Guidance: https://efc.ny.gov/american-iron-and-steel-and-build-america-buy-america-guidance.

Additionally, OMB MIAO has the authority to issue waivers that are national in scope. National waivers may be for specific products or in the public's interest.

B. Adjustment Period Waiver
The Adjustment Period Waiver is noteworthy as it waives the BABA requirements for DWSRF and CWSRF projects that initiated project design planning prior to May 14, 2022. Any listed projects subject to the adjustment period waiver will be notified in writing from EFC/DOH.

C. De Minimis Waiver
The De Minimis General Applicability Waiver, "De Minimis" permits the use of miscellaneous materials subject to BABA as long as the funds used for the de minimis incidental components cumulatively comprise no more than 5% of the total project cost. Items covered by de minimis are miscellaneous in character and often low-cost and bought in bulk. This waiver is not additive with the existing American Iron and Steel national de minimis waiver. An AIS and BABA Compliance and De Minimis Worksheet is available for use on EFC's website under Forms & Guidance: https://efc.ny.gov/american-iron-and-steel-and-build-america-buy-america-guidance.

D. Small Project Waiver
The small project waiver permits a municipality with a project in an assistance agreement with EFC totaling less than $250,000 to be waived from the BABA requirements.

OMB continues to adopt additional waivers and issue further guidance on waivers. Additional information on waivers can be found at EPA's website at: https://www.epa.gov/cwsrf/build-america-buy-america-baba-approved-waivers. All waivers will be posted on the OMB MIAO website at https://www.madeinamerica.gov.

Additional information and guidance about the BABA requirement can be found at EPA's website: https://www.epa.gov/cwsrf/build-america-buy-america-baba#rfi.

II. AIS Requirements

If a Recipient uses CWSRF or DWSRF financial assistance to fund all or a part of the construction, alteration, maintenance or repair a public water system or Treatment Works, the Recipient must use iron and steel products that are produced in the United States for the entire project.

The term "iron and steel products" means the following permanently installed products made primarily of iron or steel: lined or unlined pipes and fittings, manhole covers and other municipal castings, hydrants, tanks, flanges, pipe clamps and restraints, valves, structural steel, reinforced precast concrete, or construction materials. For one of the listed products to be considered subject to the AIS requirement, it must be made of greater than 50% iron and steel, measured by material cost (with the exception of reinforced precast concrete products).

The term "produced in the United States" means that all manufacturing processes of the iron or steel, including application of coatings, take place in the United States, with the exception of metallurgical processes involving refinement of steel additives. All manufacturing processes includes processes such as melting, refining, forming, rolling, drawing, finishing, fabricating and coating. Further, if a domestic iron and steel product is taken out of the US for any part of the manufacturing process, it becomes foreign source material. However, raw materials such as iron ore, limestone and iron and steel scrap are not covered by the AIS requirement and the material(s), if any, being applied as a coating are similarly not covered. Non-iron or steel components of an iron and steel product may come from non-US sources. For example, for products such as valves and hydrants, the individual non-iron and steel components do not have to be of domestic origin.

The EPA may waive the AIS requirement for a Treatment Works project if:

1. applying the requirement would be inconsistent with the public interest;
2. iron and steel products are not produced in the United States in sufficient and reasonably available quantities and of a satisfactory quality; or
3. inclusion of iron and steel products produced in the United States will increase the cost of the overall project by more than 25 percent.

A request for a waiver to use foreign iron or steel products must include adequate information for EPA's evaluation of the request, including:

1. A description of the foreign and domestic iron, steel, and/or manufactured goods;
2. Unit of measure;
3. Quantity;
4. Cost;
5. Time of delivery or availability;
6. Location of the project;
7. Name and address of the proposed Supplier; and,
8. A detailed justification for use of foreign iron or steel products, including potential impact to the overall project schedule.

EPA can assist with material availability research prior to a waiver request. Requests for EPA assistance must be submitted through EFC for Clean Water and DOH for Drinking Water projects. EFC/DOH will request any necessary supporting documentation and submit to EPA for feedback.

Requests for AIS waivers must be submitted to EFC/DOH. Upon review, EFC/DOH will submit AIS waiver requests to EPA. When EPA receives a request for a waiver, EPA will publish the request and any accompanying material on EPA's official public Internet site, allowing informal public input on the request for at least 15 days before granting or denying the waiver request.

Additionally, EPA has the authority to issue waivers that are national in scope. National waivers may be for specific products or in the public's interest. These waivers can be found at EPA's website at: https://www.epa.gov/cwsrf/american-iron-and-steel-requirement-approved-national-waivers-0

The "De Minimis Waiver" permits the use of iron and steel products when they occur in de minimis incidental components of DWSRF or CWSRF projects, as long as:

1. the funds used for the de minimis incidental components cumulatively comprise no more than 5% of the total cost of the materials used in a project; and,
2. the cost of an individual item does not exceed 1% of the total cost of the materials used in the project.

Items covered by the de minimis waiver are:

1. essential, but incidental to the construction;
2. incorporated into the physical structure of the project; and,
3. often low-cost and bought in bulk.

Examples of "de minimis" items include: washers, screws, nuts, bolts, fasteners, miscellaneous wire, corner bead, ancillary tubing, etc.

Examples of items that are NOT incidental and therefore are not considered "de minimis" include: process fittings, tees, elbows, flanges, brackets, valves, sewer or water pipes for distribution, treatment or storage tanks, large structural support systems, etc.

To use the de minimis waiver, Contractors should prepare a record in spreadsheet form that tracks the cost of all materials incorporated into the project. This spreadsheet can be either project specific or contract specific. If it is contract specific, a material tracking record for each

construction contract should be prepared and items that are subject to the AIS de minimis waiver should be highlighted. There should be a clear calculation available to indicate that the cost of the de minimis iron and steel items is 5% or less of the total cost of all materials. An AIS and BABA Compliance and De Minimis Worksheet is available for use on EFC's website under Forms & Guidance: https://efc.ny.gov/american-iron-and-steel-and-build-america-buy-america-guidance.

SECTION 4 GUIDANCE FOR DAVIS BACON (DB) PREVAILING WAGE REQUIREMENTS

The requirements of this section apply to all construction Contracts and Subcontracts greater than $2,000 for either DWSRF projects or CWSRF Treatment Works projects.

I. Davis-Bacon Act

The Davis-Bacon Act requires Contractors and Subcontractors performing construction, alteration and repair work under Contracts in excess of $2,000 funded from SRF monies, to pay their laborers and mechanics not less than the prevailing wage and fringe benefits for the geographic location.

A. Requirements for Recipients.

This guidance describes how Recipients assist EPA in meeting its Davis-Bacon (DB) responsibilities when DB applies to EPA awards of financial assistance under the Water Resources Reform and Development Act of 2014 (WRRDA) with respect to State Recipients and Recipients. Recipients, Service Providers or Contractors with questions about when DB applies, obtaining the correct DB wage determinations, DB provisions, or compliance monitoring should contact the State Recipient. Recipients can also obtain guidance from DOL's web site at http://www.dol.gov/whd/

1. Applicability of the DB prevailing wage requirements.

Under the Water Resources Reform and Development Act of 2014 (WRRDA), DB prevailing wage requirements apply to the construction, alteration, and repair of Treatment Works carried out in whole or in part with assistance made available by a State water pollution control revolving fund. If a Recipient encounters a unique situation at a site that presents uncertainties regarding DB applicability, the Recipient must discuss the situation with the State Recipient before authorizing work on that site.

2. Obtaining Wage Determinations.

(a) Recipients must obtain the wage determination for the locality in which a covered activity subject to DB will take place prior to issuing requests for bids, proposals, quotes or other methods for soliciting contracts (solicitation) for activities subject to DB. If multiple construction types apply on separate wage determinations, each applicable wage determination must be incorporated. These wage determinations must be incorporated into solicitations and any subsequent Contracts. Prime Contracts must contain a provision requiring that Subcontractors follow the wage determination incorporated into the prime Contract.

(i) While the solicitation remains open, the Recipient must monitor https://sam.gov/content/wage-determinations weekly to ensure that the wage

determination contained in the solicitation remains current. Recipients must amend the solicitation if DOL issues a modification more than 10 days prior to the closing date (i.e. bid opening) for the solicitation. If DOL modifies or supersedes the applicable wage determination less than 10 days prior to the closing date, the Recipient may request a finding from the State Recipient that there is not a reasonable time to notify interested Contractors of the modification of the wage determination. The State Recipient will provide a report of its findings to the Recipient.

(ii) If the Recipient does not award the contract within 90 days of the closure of the solicitation, any modifications or supersessions DOL makes to the wage determination contained in the solicitation shall be effective unless the State Recipient, at the request of the Recipient, obtains an extension of the 90-day period from DOL pursuant to 29 CFR 1.6(c)(3)(iv). The Recipient shall monitor https://sam.gov/content/wage-determinations on a weekly basis if it does not award the Contract within 90 days of closure of the solicitation to ensure that wage determinations contained in the solicitation remain current.

(b) If the Recipient carries out activity subject to DB by issuing a task order, work assignment or similar instrument to an existing Contractor (ordering instrument) rather than by publishing a solicitation, the Recipient must insert the appropriate DOL wage determination from https://sam.gov/content/wage-determinations into the ordering instrument.

(c) Recipient must update wage determinations after contract award when the contract or order is changed to include additional, substantial construction[4] either

(i) not within the scope of the work, or when the contract or

(ii) the order is changed to require the Contractor to perform work for an additional time period not originally obligated, including when an option is exercised on a contract or order.

The Recipient must include the most recent revision of any wage determination(s) at the time the contract is changed, or the option is exercised.

(d) Recipients must review all Subcontracts subject to DB entered into by prime Contractors to verify that the prime Contractor has required its Subcontractors to include the applicable wage determinations.

(e) As provided in 29 CFR 1.6(f), DOL may issue a revised wage determination applicable to a Recipient's Contract after the award of a Contract or the issuance of an ordering instrument if DOL determines that the Recipient has failed to incorporate a wage determination or has used a wage determination that clearly does not apply to the Contract or ordering instrument. If this occurs, the Recipient must either terminate the Contract or ordering instrument and issue a revised solicitation or ordering instrument or incorporate DOL's wage determination retroactive to the beginning of the Contract or ordering instrument by change order. The Recipient's Contractor must be compensated for any increases in wages resulting from the use of DOL's revised wage determination.

B. Compliance Verification

(a) The Recipient must periodically interview a sufficient number of employees entitled to DB prevailing wages (covered employees) to verify that Contractors or Subcontractors are paying the appropriate wage rates. All interviews must be

[4] When the cost of construction exceeds either $2,500,000 or 20% of total project costs.

conducted in confidence. The Recipient must use Standard Form 1445 or equivalent documentation to memorialize the interviews. Copies of the SF 1445 are available from EPA on request.

(b) The Recipient must establish and follow an interview schedule based on its assessment of the risks of noncompliance with DB posed by Contractors or Subcontractors and the duration of the Contract or Subcontract. Recipients must increase the frequency of the interviews if the initial interviews or other information indicates that there is a risk that the Contractor or Subcontractor is not complying with DB. Recipients must immediately conduct necessary interviews in response to an alleged violation of the prevailing wage requirements. All interviews must be conducted in confidence.

(c) The Recipient must periodically conduct spot checks of a representative sample of weekly payroll data to verify that Contractors or Subcontractors are paying the appropriate wage rates. The Recipient must establish and follow a spot check schedule based on its assessment of the risks of noncompliance with DB posed by Contractors or Subcontractors and the duration of the Contract or Subcontract. At a minimum, the Recipient must spot check payroll data within two weeks of each Contractor or Subcontractor's submission of its initial payroll data and two weeks prior to the completion date the Contract or Subcontract. Recipients must conduct more frequent spot checks if the initial spot check or other information indicates that there is a risk that the Contractor or Subcontractor is not complying with DB. In addition, during the examinations the Recipient must verify evidence of fringe benefit plans and payments thereunder by Contractors and Subcontractors who claim credit for fringe benefit contributions.

(d) The Recipient must periodically review Contractors' and Subcontractors' use of apprentices to verify registration and certification with respect to apprenticeship and training programs approved by either the U.S Department of Labor or a state, as appropriate, and that Contractors and Subcontractors are not using disproportionate numbers of laborers and apprentices. These reviews must be conducted in accordance with the schedules for spot checks and interviews described in Item (b) and (c) immediately above.

(e) Recipients must immediately report potential violations of the DB prevailing wage requirements to the EPA DB contact listed above and to the appropriate DOL Wage and Hour District Office listed at https://www.dol.gov/agencies/whd/contact/complaints.

II. Applicable State and Local Labor Standards

A. Contractors and Subcontractors working under a public works contract subject to DB may also be subject to additional labor standards, including but not limited to prevailing wage requirements, under State and local laws. When preparing the bid for SRF project, the Contractor, and any Subcontractors, must use the higher of the prevailing federal, state, or applicable local wage rates paid to each trade.

III. Responsibilities of Contractors and Subcontractors

A. After execution of any SRF eligible Contracts, the Contractor and Subcontractor have the following responsibilities:

1. Display the Davis Bacon Wage Poster and applicable federal, state, and local wages in a visible area at the construction site. This poster may be found on the EFC website (Attachment 10)at https://nysefc.app.box.com/s/d6sys8owtgzv4ndqjvqvpwr0htp20l9s.
2. Make your employees available for wage interviews if necessary. Wage interviews must be conducted confidentially and using Labor Standard Interview Form (SF-1445),

included in Attachment 11.

3. Use federal payroll form WH-347 and complete the certifications on the back. If another form is being used, inform the Recipient and obtain a determination that the form is equivalent to the federal form. (Refer to the attached required forms)
4. Pay the higher of applicable prevailing federal, state, or local wages, including benefits (fringe & holidays), to each trade and overtime not less than one and one-half times the basic rate of pay for hours in excess of forty hours on Contracts in excess of $100,000. The wage rates apply to Subcontractor trades as well.
5. Maintain proof of apprentice and trainee ratios for both Contractor and Subcontractor and certifications onsite.
6. Pay wages to your employees and your Subcontractors on a weekly basis. Ensure that your Subcontractors are paying their employees weekly.
7. Ensure that the Subcontracts contain the Davis Bacon contract language, the applicable federal, state, or local wage determinations and equal employment opportunity language. This language is provided in the EFC Terms & Conditions. Federal wage determinations are available at https://sam.gov/content/wage-determinations.
8. Provide payroll forms and apprentice and trainee certifications to the Recipient for their records.
9. Report potential waste, fraud and abuse violations to the EPA Davis Bacon Contact and DOL Wages and Hours District Office found on their website. https://sam.gov/.

B. Any violations in payroll reporting or unpaid wages are subject to a daily monetary penalty.

SECTION 5 GUIDANCE FOR REQUIREMENTS REGARDING SUSPENSION AND DEBARMENT

The requirements of this section apply to all Contracts and Subcontracts.

Neither the Contractor nor any of its Subcontractors have contracted with, or will contract with, any debarred or suspended party under the following lists:

- A list of debarred and suspended contractors, pursuant to 2 CFR Parts 180 and 1532, 29 CFR § 5.12, and Executive Order 12549 is available on the US Department of Labor's website at www.sam.gov/SAM.

- A list of contractors and subcontractors deemed ineligible to submit a bid on or be awarded a public contract or subcontract, pursuant to Article 8 of the State Labor Law, is available on the New York State Department of Labor's website at http://labor.ny.gov/workerprotection/publicwork/PDFs/debarred.pdf

- A list of contractors deemed ineligible to submit a bid is maintained by Empire State Development's Division of Minority and Women's Business Development.

SECTION 6 GUIDANCE FOR RESTRICTIONS ON LOBBYING

The requirements of this section apply to all Contracts and Subcontracts greater than $100,000.

With their bid or proposal submittal, each Contractor and any Subcontractor that has a Contract or Subcontract exceeding $100,000 shall provide to the Recipient a completed Certification Regarding Lobbying pursuant to 40 CFR Part 34 ("Lobbying Certification") on Attachment 3 consistent with the prescribed form provided in Appendix A to 40 CFR Part 34. The form provides a certification that the Contractor or Subcontractor will not expend appropriated federal funds to pay any person for influencing or attempting to influence an officer or employee of any agency, Member of Congress, officer or employee of Congress or any employee of any Member of Congress in accordance with the provisions of

40 CFR Part 34, and to maintain such certification for their own records.

SECTION 7 GUIDANCE ON PROHIBITION ON CERTAIN TELECOMMUNICATIONS AND VIDEO SURVEILLANCE SERVICES OR EQUIPMENT

The requirements of this section apply to all Contracts and Subcontracts.

Effective August 13, 2020, Recipients of SRF funding must comply with regulations at 2 CFR 200.216, *Prohibition on certain telecommunication and video surveillance services or equipment*, implementing section 889 of Public Law 115-232. The regulation prohibits the use of Federal funds to procure (enter into, extend, or renew contracts) or obtain equipment, systems, or services that use "covered telecommunications equipment or services" identified in the regulation as a substantial or essential component of any system, or as critical technology as part of any system. Prohibitions extend to the use of Federal funds by recipients and subrecipients to enter into a contract with an entity that "uses any equipment, system, or service that uses covered telecommunications equipment or services" as a substantial or essential component of any system, or as critical technology as part of any system. Certain equipment, systems, or services, including equipment, systems, or services produced or provided by entities subject to the prohibition are recorded in the System for Award Management exclusion list.

There is no exhaustive list of components and services that fall under the prohibition. Contractors should exercise due diligence and be particularly mindful of procuring and installing project components with internet or cellular connections. Examples of common video and telecommunications equipment include, automatic meter reading (AMR) technology and advanced metering infrastructure (AMI), instrumentation control systems (e.g. process control systems, distributed control systems and programmable logic controls), and security cameras and other electronic security measures. Items included in the prohibition are not eligible SRF costs, and the SRF programs cannot reimburse Recipients for these costs.

SECTION 8 GUIDANCE FOR CONSTRUCTION SIGNS

The requirements of this section apply to all EFC projects. Additional permanent signage is required for projects receiving funding from the NYS Bond Act.

All projects are expected to post a construction sign, the Recipient may determine the party required to provide and install the sign. Sample construction sign specifications can be found at www.efc.ny.gov for standard signage, as applicable. Permanent signage for projects receiving funding from the NYS Bond Act is available upon request, as applicable.

EMPLOYERS HOLDING FEDERAL CONTRACTS OR SUBCONTRACTS

The Department of Labor's Office of Federal Contract Compliance Programs (OFCCP) enforces the nondiscrimination and affirmative action commitments of companies doing business with the Federal Government. If you are applying for a job with, or are an employee of, a company with a Federal contract or subcontract, you are protected under Federal law from discrimination on the following bases:

Race, Color, Religion, Sex, Sexual Orientation, Gender Identity, National Origin

Executive Order 11246, as amended, prohibits employment discrimination by Federal contractors based on race, color, religion, sex, sexual orientation, gender identity, or national origin, and requires affirmative action to ensure equality of opportunity in all aspects of employment.

Asking About, Disclosing, or Discussing Pay

Executive Order 11246, as amended, protects applicants and employees of Federal contractors from discrimination based on inquiring about, disclosing, or discussing their compensation or the compensation of other applicants or employees.

Disability

Section 503 of the Rehabilitation Act of 1973, as amended, protects qualified individuals with disabilities from discrimination in hiring, promotion, discharge, pay, fringe benefits, job training, classification, referral, and other aspects of employment by Federal contractors. Disability discrimination includes not making reasonable accommodation to the known physical or mental limitations of an otherwise qualified individual with a disability who is an applicant or employee, barring undue hardship to the employer. Section 503 also requires that Federal contractors take affirmative action to employ and advance in employment qualified individuals with disabilities at all levels of employment, including the executive level.

Protected Veteran Status

The Vietnam Era Veterans' Readjustment Assistance Act of 1974, as amended, 38 U.S.C. 4212, prohibits employment discrimination against, and requires affirmative action to recruit, employ, and advance in employment, disabled veterans, recently separated veterans (i.e., within three years of discharge or release from active duty), active duty wartime or campaign badge veterans, or Armed Forces service medal veterans.

Retaliation

Retaliation is prohibited against a person who files a complaint of discrimination, participates in an OFCCP proceeding, or otherwise opposes discrimination by Federal contractors under these Federal laws.

Any person who believes a contractor has violated its nondiscrimination or affirmative action obligations under OFCCP's authorities should contact immediately:

PROGRAMS OR ACTIVITIES RECEIVING FEDERAL FINANCIAL ASSISTANCE

Race, Color, National Origin, Sex

In addition to the protections of Title VII of the Civil Rights Act of 1964, as amended, Title VI of the Civil Rights Act of 1964, as amended, prohibits discrimination on the basis of race, color or national origin in programs or activities receiving Federal financial assistance. Employment discrimination is covered by Title VI if the primary objective of the financial assistance is provision of employment, or where employment discrimination causes or may cause discrimination in providing services under such programs. Title IX of the Education Amendments of 1972 prohibits employment discrimination on the basis of sex in educational programs or activities which receive Federal financial assistance.

Individuals with Disabilities

Section 504 of the Rehabilitation Act of 1973, as amended, prohibits employment discrimination on the basis of disability in any program or activity which receives Federal financial assistance. Discrimination is prohibited in all aspects of employment against persons with disabilities who, with or without reasonable accommodation, can perform the essential functions of the job.

If you believe you have been discriminated against in a program of any institution which receives Federal financial assistance, you should immediately contact the Federal agency providing such assistance.

Attachment 2 – EFC DBE Utilization Plan

Environmental Facilities Corporation | Department of Health

NYS Environmental Facilities Corporation
Disadvantaged Business Enterprise (DBE) Utilization Plan

Instructions for Contractors & Service Providers:

Contractors and Service Providers must complete Sections 2 and 3. Submit the completed signed (electronic signature box checked and dated) form to the Recipient's Minority Business Officer (MBO) no later than the date of contract execution. Incomplete forms will be found deficient. If more than 10 subcontractors are used, additional pages for Section 3 can be obtained from EFC.

If the prime contract is being performed by the parties to a Joint Venture, Teaming Agreement, or Mentor-Protégé Agreement that includes a certified DBE, please contact EFC for assistance.

DBEs on this form may include disadvantaged firms certified by the New York State Unified Certification Program (NYSUCP), and disadvantaged firms certified by the Small Business Administration. In addition, the participation of DBEs will be credited according to the following requirements:

- Contractors cannot count the participation of a DBE who acts as a broker or passive conduit of funds without performing, managing, or supervising the work of its contract or subcontract in a manner consistent with normal business practices. If 50% or more of the total dollar amount of a DBE's prime contract or subcontract is subcontracted to a non–DBE, the DBE prime contractor or subcontractor will be presumed to be a broker.
- Contractors may count the participation of a DBE trucker/hauler only if the trucker/hauler is performing a "commercially useful function," according to the following factors:
    - The DBE must be responsible for the management and supervision of the entire trucking/hauling operation for which it is responsible on a particular contract, and there cannot be a contrived arrangement for the purpose of meeting DBE objectives.
    - The DBE must itself own and operate at least one fully licensed, insured, and operational truck used on the contract.

See the Mandatory Equivalency Terms and Conditions or consult your designated MBO for further guidance.

Instructions for Minority Business Officers (MBO):

The MBO must complete Section 1. Email the completed, signed (electronic signature box checked and dated) form to your EFC Program Compliance Specialist.

The subject heading of the email to the EFC Program Compliance Specialist should follow the format "UP, Project Number, Contractor." EFC will review the Utilization Plan and email the MBO an acceptance or denial.

If the Utilization Plan will not meet or exceed the DBE fair share objective, then the good faith effort documentation noted in Section 4 must be submitted with this form.

This data collection is for submitting a waiver request to the Build America, Buy America requirements. According to the Build America Buy America Act (BABAA), "none of the funds made available for a Federal financial assistance program for infrastructure, including each deficient program[1], may be obligated for a project unless all of the iron, steel, manufactured products, and construction materials used in the project are produced in the United States."

Waivers are explained in the Office of Management and Budget Memorandum 22-11 and required by the Infrastructure, Investments and Jobs Act (IIJA) sections 70901 through 70952. Each waiver request must provide responses to the form questions, as applicable. Instructions are provided in the next paragraph. You must demonstrate market research, which may be accomplished with assistance from the Federal agency, and adequately considered qualified alternate items, products, or materials.

Applicable responses to the following are required:

11.1.1 A description of the due diligence performed by the applicant, engineer/architect, or contractor, including names and contact information of the manufacturers, distributors, or suppliers contacted for quotes (minimum 3), and the responses provided.

11.1.2 If one or more respondent indicated that they could provide a BABA compliant item, but you are requesting the non-availability waiver because the lead time to obtain the BABA compliant item is excessive, indicate below how the difference in lead time between a BABA compliant and non-compliant item is going to cause the project to miss a significant milestone or deadline.

11.2 **Unreasonable Cost.** (BABA compliance increases total project cost by more than 25 percent). This checkbox is chosen when the inclusion of iron, steel, manufactured products, or construction materials produced in the United States will increase the total project cost to the overall project by more than 25 percent. You are requesting the Federal agency to waive the application of the BABAA domestic preference. You must provide documentation to the Federal agency that no domestic alternatives are available within the cost parameter. This may be accomplished with assistance from the Federal agency.

Applicable responses to the following are required:

11.2.1 What is the additional cost of BABA compliant iron and steel, manufactured products, and construction materials, compared to items of non-domestic or unknown origin? Attach documentation of prices for BABA compliant and non-compliant items for items to be included in the cost comparison. Such documentation may include quotes from suppliers or bid tabulations from bid actions which solicited both BABA compliant and non-compliant products. Attach an additional PDF file if needed.

11.2.2 What is the additional administrative cost for compliance with the BABA requirements? Attach a certification from the engineer or architect attesting to the actual or expected additional administrative cost. Attach an additional PDF file if needed.

11.2.3 The BABAA allows for a waiver in cases where "the inclusion of iron, steel, manufactured products, or construction materials produced in the United States will increase the cost of the overall project by more than 25 percent." If you are requesting a waiver under this requirement, we will waive items until the excess costs due to BABA are less than 125 percent of the non-BABA project. The BABA requirements will be waived for individual items until the total additional cost of BABA compliance is less than 25 percent of the total project cost.

For example, the project has three items which each cost $20 for the non-domestic item. The equivalent domestic item costs $30. Total project cost includes those items, along with $40 of labor and soft costs. ("Soft costs" is a construction industry term or contractor accounting term for an expense item that is not considered direct construction cost. Soft costs include architectural, engineering, financing, and legal fees, and other pre- and post-construction expenses.) In this example, administration of BABA adds $4 to soft costs. The total cost of the non-BABA project would be $100 (3 x $20 + $40) and the BABA project is $134 (3 x $30 + $44), a 34 percent increase. Waiving BABA requirements for one of the three items would decrease total project cost to $124, which is less than 25 percent cost threshold.

Item	BABA cost	Non-BABA cost

Legal services

Total Project Cost	**A**	**B**

1) Percentage increase in total project cost due to BABA (= 100 percent multiplied by (A-B)/B):

2) Dollar amount to be waived (= A – 1.25 multiplied by B):

Indicate which items the applicant wishes to waive from the BABA requirements to bring the total costs below 125 percent of the non-BABA total project cost. Items should be selected judiciously so that the total cost savings of using non-BABA items exceeds the amount in Row 2 by the smallest practicable amount. Only items submitted in response to question 10.2.1 are eligible for a waiver (it is not expected that soft costs will be affected significantly by the waiver).

11.3 Public Interest. Explain how waiving the BABA requirement for this project or product serves the public interest. By choosing this checkbox, you will explain how waiving the BABA domestic preference for this project or product serves the public interest. You can demonstrate definite impacts on the community if specific items, products or materials are not utilized in an infrastructure project. You are requesting the Federal agency waive the application of the BABA domestic preference because the domestic content preference would be inconsistent with the public interest. You will ensure this waiver is used judiciously and construed to ensure the maximum utilization of goods, products, and materials produced in the United States.

12. **Waiver Additional Information:** Indicate any additional information for the Agency's consideration of the requested waiver.
13. **Anticipated Impacts:** Identify any anticipated impacts if no waiver is issued. Provide a narrative that will explain the impact to the award, project, or the public should the waiver be denied. Attach additional PDF pages if needed.
14. **Certifying Official Name:** The name of the person who is certifying the waiver request.
15. **Certifying Official Signature:** The signature of the person who is certifying the waiver request will sign this section.
16. **Date of Certification:** Provide the date (MM/DD/YYYY) that the signature was provided.

Federal Agency Instructions:

1A. Provide the Federal awarding agency.

2A. Provide the Federal financial assistance program listing number.

3A. Provide the Federal financial assistance program title.

4A. Provide the first name, last name, email, and phone number of the Federal awarding agency point of contact.

5A. Provide the Federal Award Identification Number (FAIN) (if available) and the Federal awarding agency organizational information (e.g., Common Government wide Accounting Classification (CGAC) Agency Code). Enter the Federal Agency name, and subcomponent name if known, and the CGAC code. **USDA's CGAC code is 012. For example, an appropriate response would be U.S. Department of Agriculture, Forest Service, CGAC 012.**

6A. Indicate waiver level. Project, Award, Program or Agency.

7A. Is this a general applicability waiver? Indicate if this is a general applicability waiver or not.

8A. Agency summary and determination regarding the waiver request. Provide a narrative summarizing the Federal Agency's determination of the waiver request. It should include the reasons for approving or disapproving the waiver.

9A. Agency waiver: In an attempt to avoid the need for a project specific waiver, such a justification may cite, if applicable, the absence of any Buy America-compliant bids received in response to a solicitation. This should be a narrative and include all necessary information to support the justification for a waiver. This may be submitted as an attachment as a PDF file.

10A. Any relevant comments received through the public comment period. This is to be filled out after the waiver has been posted to the Agency's Buy American Website. For example, the USDA website if found here: https://www.usda.gov/ocfo/federal-financial-assistance-policy/USDABuyAmericaWaiver.

11A. Select the timeline you are requesting for the waiver of the BABAA domestic sourcing requirements:

For the entire period of performance of the grant in which the infrastructure projects will occur.
OR
For a limited time during the period of performance of the grant. We request a waiver of the identified BABAA domestic sourcing requirements from [XX/XX/XXXX] only until [XX/XX/XXXX] date. After the identified end date, if there is a need for another waiver for the infrastructure projects, a new Build America Buy America Waiver Request form must be completed and submitted to the Federal agency. The waiver time frame cannot exceed the approved period of performance of the grant unless there is an approved grant extension by the Federal awarding agency.

Public Posting of Waiver Request Information

The BABAA domestic sourcing requirements waiver authority generally requires the Federal awarding agency to post this waiver information for a period of public comment and review. The Department will not publicly post information considered to be personally identifiable information (PII), including signatures and specific contact information such as an email address and phone number. While use of Form WH-347 itself is optional, covered contractors and subcontractors performing work on Federal or federally assisted construction contracts are required by the DBRA regulations and the contract clauses to submit payroll information on a weekly basis. The Copeland Act (40 U.S.C. § 3145) requires contractors and subcontractors performing work on Federal or federally financed construction contracts to, on a weekly basis, "furnish a statement on the wages paid each employee during the prior week." U.S. Department of Labor (DOL) Regulations at 29 C.F.R. § 5.5(a)(3)(ii) require contractors and subcontractors to submit weekly certified payrolls to the appropriate Federal agency if the agency is a party to the contract (or, if the agency is not such a party, to the applicant, sponsor, owner, or other entity, as the case may be, that maintains such records, for transmission to the Federal agency). Each certified payroll must be accompanied by a signed "Statement of Compliance" (e.g., page 2 of the WH-347 or another document with identical wording) indicating that the certified payrolls are accurate and complete, and that each laborer or mechanic has been paid not less than the required Davis-Bacon prevailing wage rate(s) (including any fringe benefits) for the work performed. DOL and contracting agencies receiving this information review the information to determine whether workers have received legally required wages and fringe benefits.

Public Burden Statement

We estimate that it will take an average of 55 minutes to complete this collection, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. If you have any comments regarding these estimates or any other aspect of this collection, including suggestions for reducing this burden, send them to the Administrator, Wage and Hour Division, U.S. Department of Labor, Room S3502, 200 Constitution Avenue, N.W. Washington, D.C. 20210

SECTION I:

Notice and Pre-Award Statement Form for Prevailing Wage Contracts

Prime Contractor Pre-Award Statement – **Prevailing Wage Contracts**

Agency: _____

Prime Contractor: _____

Contract #: _____

On behalf of the prime contractor and contract shown above, I affirm that I have reviewed the following information with the contracting agency:

- The work to be done or the trades that will be employed on the contract;
- The Comptroller's prevailing wage schedules for each trade;
- The requirement to pay the prevailing wage and supplement rates in effect at the time the work is done, and the dates of likely changes in such rates (July 1 and January 1);
- The requirement for written agreements with all subcontractors, which include prevailing wage and supplement requirements;
- The registration, ratio and payment guidelines for apprentices, and whether their use is optional or required under this contract;
- The requirement to use City-approved certified payroll forms, the need to fill those forms out completely, and to submit such original payrolls within thirty (30) days of issuance of the first payroll and every thirty (30) days thereafter;
- The requirement to use standard sign-in and sign-out logs or an agency-approved electronic or biometric system, and that such logs must be submitted to the resident engineer or agency representative daily;
- The requirement that all workers on job sites shall wear laminated photo identification badges;
- The prohibition on cash payments to workers and subcontractors; all workers must be paid by check or direct deposit weekly (bi-weekly, where permitted by law [certain non-construction workers only]), and that for contracts over $1,000,000 and subcontracts over $750,000 such checks must be generated by either a payroll service or an agency-approved automated system; and
- That the prime contractor shall be liable to the City for the cost of enforcement in the event the prime contractor or any subcontractor is found in violation of these requirements.

I further affirm that the prime contractor will comply with these and all other relevant requirements of the New York State Labor Law and City of New York laws and regulations concerning payment of prevailing wages and supplements, and that violation of such laws may subject the prime contractor to various administrative, civil and criminal penalties.

Contractor is reminded that all wage provisions of this contract will be enforced strictly, and failure to comply will be considered when evaluating performance. Noncompliance may result in the contractor being debarred by the City from future contracts. Electronic Funds Transfer ("EFT") Information and Form;

EFT/Direct Deposit Quick Start Guide

EFT/Direct Deposit Quick Start Guide

Vendors who want to direct NYC payments from FMS to a single bank account can enroll in EFT/Direct Deposit using the Payee Information Portal (PIP)

This guide provides the steps to set up a single bank account for vendor payments to be made with Electronic Funds Transfer (EFT)/Direct Deposit from the New York City Financial Management System (FMS). The EFT/Direct Deposit enrollment is done online at www.nyc.gov/PIP.

- If you already have a PIP User ID and password, you can login to PIP and proceed to add or change your bank account information.
- If you are a **new** vendor doing business with the City of New York, you can create a new PIP account and vendor code, and then add your bank account information for EFT immediately.

NOTE – Contact the City of New York's Department of Finance (DOF) directly at VendorEFT@Finance.nyc.gov instead of using the PIP EFT enrollment features if:

- **you have multiple bank accounts to be enrolled**
- **you want to delete the EFT bank account**
- **your business is a non-US business entity (foreign vendors)**

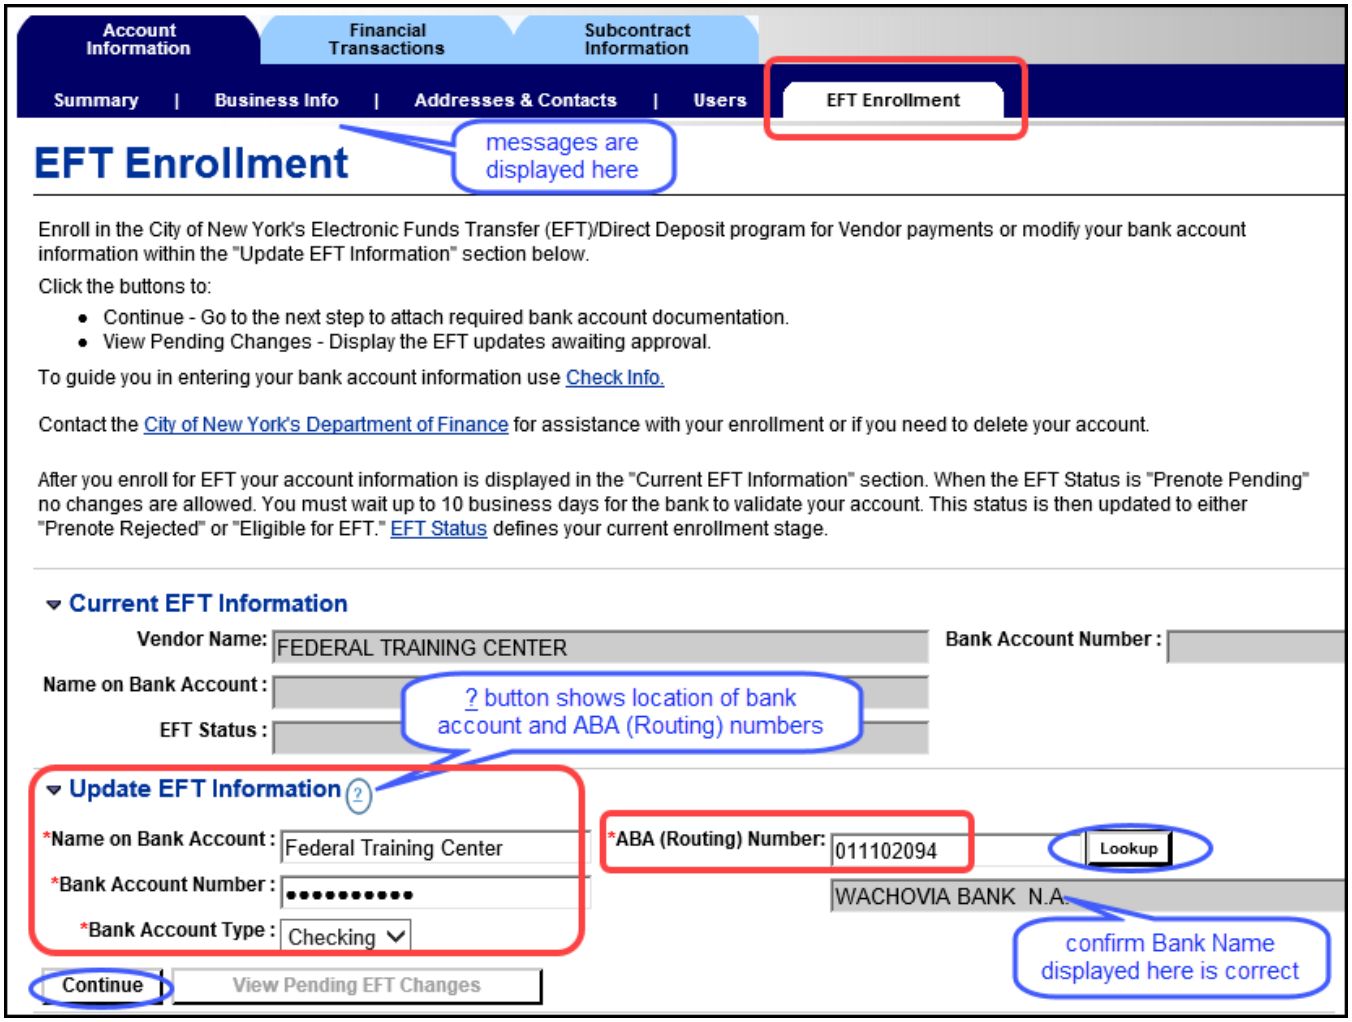

For enrollment you need the following information, preferably from one of your checks:

- Name on your Bank Account
- ABA (Routing) Number
- Your Bank Account Number and Type (checking or savings)
- At least one of the following documents, in electronic file format on your computer, to attach to the PIP enrollment submission.
  - Copy of voided check imprinted with vendor name
  - Current bank statement
  - Letter from your bank

NOTE - The following attachment file types are allowed: pdf, txt, doc, docx, rtf, jpg, tif, tiff, png, psd, gif, bmp, and zip, with a maximum size of 2 MB each file. The File Name can contain the dash or underscore, but should not contain other special characters. Do not include any sensitive information in the Description or File Name, i.e., Bank Account Number.

EFT/Direct Deposit Quick Start Guide

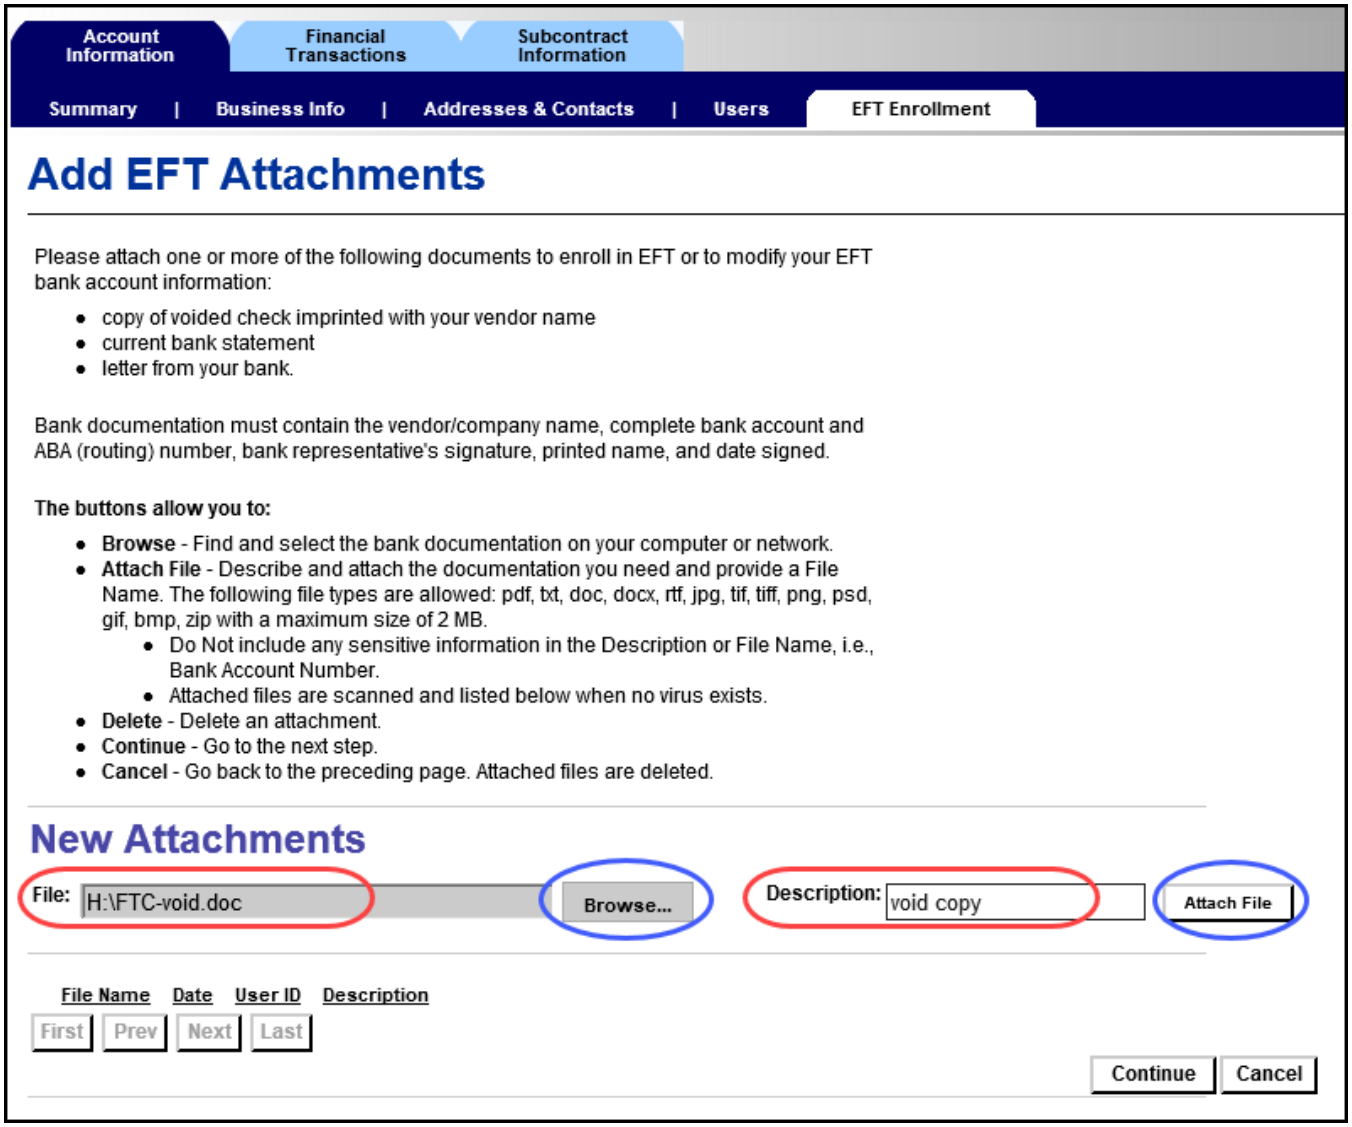

1. Open the PIP home page, www.nyc.gov/pip and login.
2. Go to the ***EFT Enrollment*** tab.

In the **Update EFT Information** section near the bottom of the screen:

3. Enter *Name on Bank Account*, as it appears on your check or statement.
4. Enter the *Bank Account Number*, as printed on your check or statement.
5. Select the *Bank Account Type* from the drop down list, Checking or Savings.
6. Enter the *ABA (Routing) Number*, as printed on your check.
7. Click the ***Lookup*** button to display the bank name below your entry.
8. Confirm the *bank name* is correct. NOTE: If the bank name isn't displayed, a message at the top of the page explains the error. Verify your entry against your check.
9. Click the ***Continue*** button to attach your documentation.

EFT/Direct Deposit Quick Start Guide

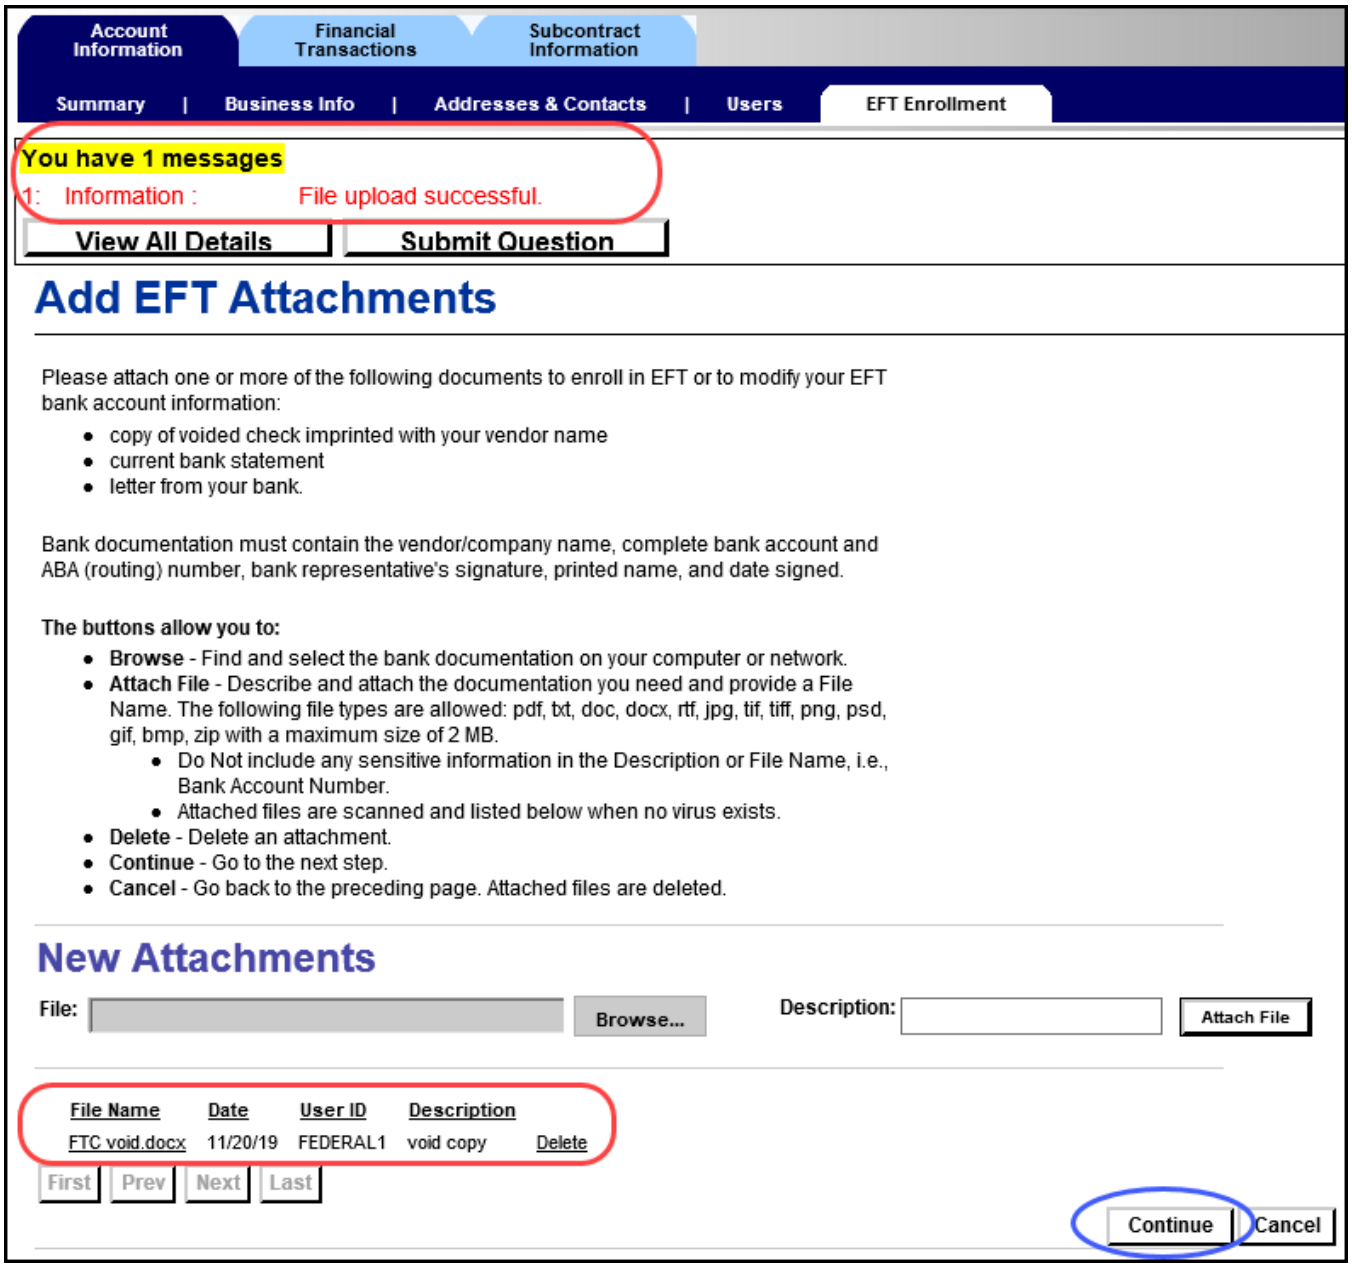

1. Click the ***Browse*** button to find your bank documentation on your computer.
2. When the **Choose File to Upload** window opens, find the file you need to attach and select it. The selected file name displays in the **File:** box next to the Browse button.
3. You have an option to enter a *Description* of the file.
4. Click the ***Attach File*** button.

EFT/Direct Deposit Quick Start Guide

A message at the top of the page indicates that your file uploaded successfully. The file you attach successfully is displayed below. If it doesn't upload, the message will contain the explanation.

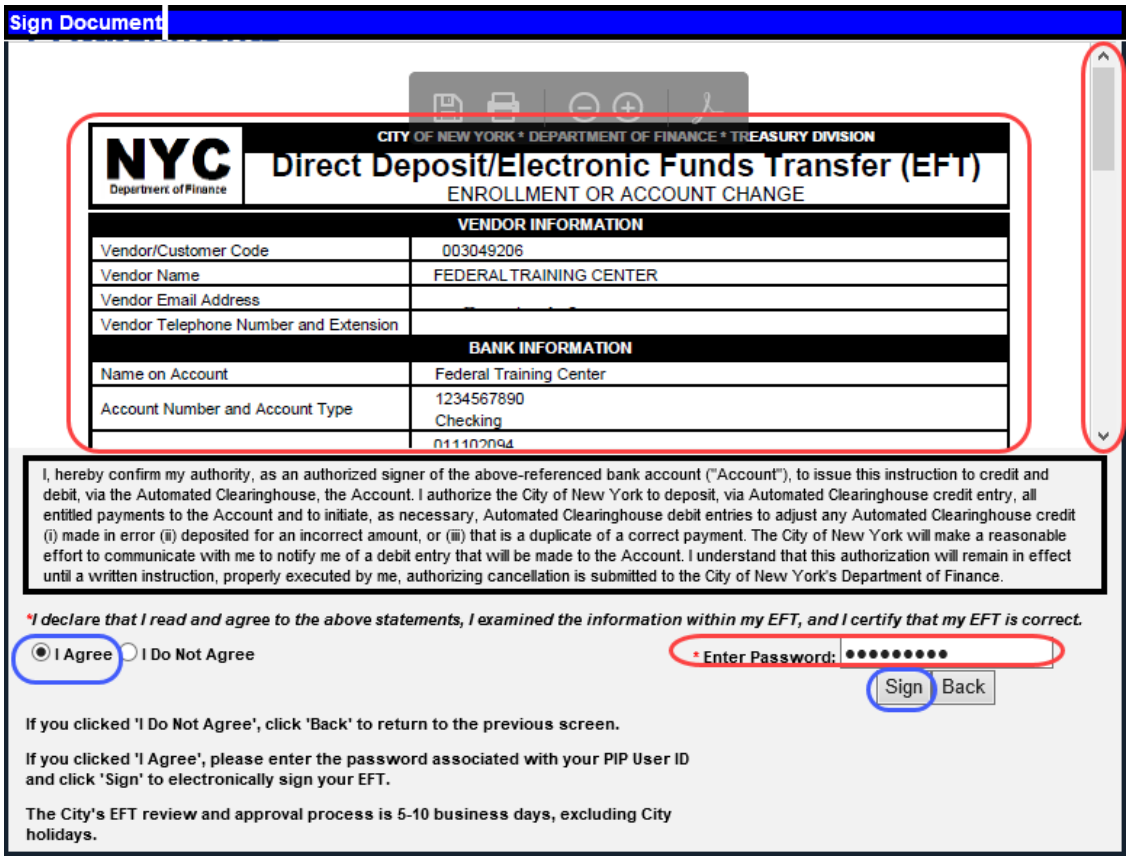

Files must be attached one at a time to be scanned for viruses; there is no limit to the number. If you have another file to attach, repeat steps 1-4 above.

5. Click the ***Continue*** button to review and electronically sign the Direct Deposit/Electronic Funds Transfer (EFT) form.

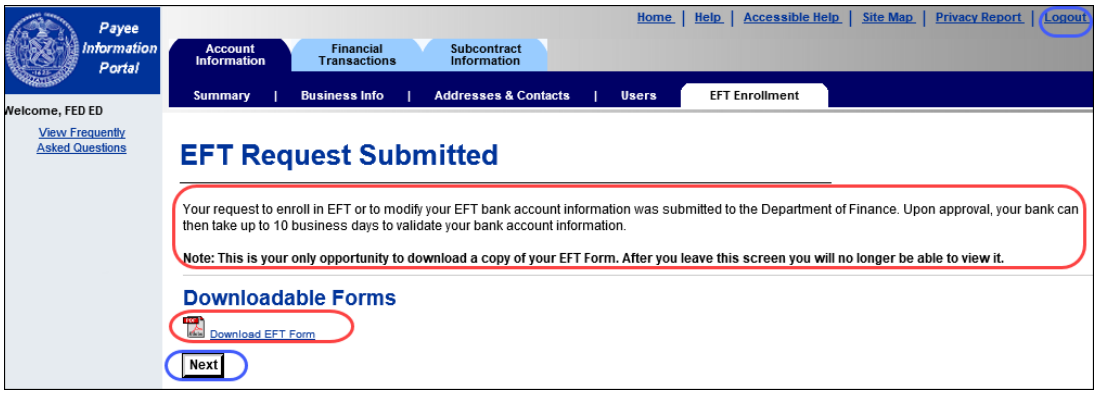

EFT/Direct Deposit Quick Start Guide

A form is displayed with the bank information you entered. Carefully review it for accuracy.

1. Select ***I agree*** on the form after reviewing the information and reading the terms.
2. *Enter your PIP Password* to electronically sign the form.
3. Click the ***Sign*** button to submit the form.

1. Click the ***Download EFT Form*** link to save and print the electronically signed EFT Form.
   NOTE: After you leave this page, you will no longer be able to view or save the form.

You have completed the EFT request process. Next steps are DOF review and bank validation.

2. Click the ***Next*** button if you see a need to update the EFT request on the same business day as submitted, or click ***Logout***.

EFT/Direct Deposit Quick Start Guide

Next Steps: You will receive an email from DOF (VendorEFT@Finance.nyc.gov) confirming the EFT enrollment form receipt. DOF reviews your EFT information to approve or reject it. You will receive a second email from DOF when the review is completed. If the EFT form is rejected, the explanation is included, and you can login to PIP again to submit correct information in the EFT Enrollment page, or contact DOF directly at VendorEFT@Finance.nyc.gov.

NOTE: You can see your submitted bank information (View Pending EFT Changes) until DOF completes their review, but can ONLY update the bank information on the same business day it was submitted.

1. From the **EFT Enrollment** page, click the **View Pending Changes** button to view or update information.

On the **View Pending EFT Changes** page, you will see the entries you submitted.

2. Click the ***Update EFT Pending Changes*** button to make changes and re-submit.
   NOTE: the *Update EFT Pending Changes* button is disabled the day after you submit your EFT request.
3. If no changes are needed, go **Back** or ***Logout***.

BANK VALIDATION: When DOF approves your application, it is routed to your bank for validation, which can take up to 10 business days. You can check the progress in the PIP Account Summary page, or EFT Enrollment page, *Current EFT Information* section, ***EFT Status*** as follows:

- *Prenote Pending* – Vendor EFT Enrollment information is awaiting bank account validation.
- *Prenote Rejected* – The bank rejected your Vendor EFT enrollment application.
- *Eligible for EFT* – Payments will be made via EFT.
- *Not Eligible for EFT* – The bank rejected a City of New York payment to your bank account. You can check with your bank to see why it was rejected.
- *EFT Hold* – The City of New York placed a hold on your EFT enrollment.

If you have any questions about your EFT account, contact DOF directly at VendorEFT@Finance.nyc.gov.
