## Demographic Data Tables and Borough Maps of Current OACs and NORCs

The tables below present demographic data[1] by community district for each of the five boroughs. Proposers are encouraged to review this information to better understand the characteristics and needs of the communities they intend to serve and to incorporate these considerations into program design.

[1] Data are sourced from the American Community Survey (ACS) 2019-2023 PUMS Custom Data Tables, unless noted otherwise. A select group of Community Districts (CDs) have been combined in the tables above for data reporting, civic research, and planning purposes; because they are estimated to have considerably less than 100,000 people, these CDs have been combined to meet the minimum Public Use Microdata (PUMA) population threshold. (Previous data can be found under the Profile of Older New Yorkers: https://www.nyc.gov/assets/dfta/downloads/pdf/reports/PONY_11062023.pdf.)

[2] Nationally, the food insecurity rate is 13.7%. Food insecurity rates above 20% indicate very high levels of food insecurity.
